## INTRODUCTION

Hello there, mates. How are you, are you all right? Welcome, dear Valhalla. Our friends are arriving little by little. You all know it already. We are as good as we can be in this position where Mars is so actively retrograde, in a perverted position on Neptune, opposing Venus.

We had a very severe flu as a family. Alya got pneumonia and cannot go to school. Mars square to Alya's Sun is retrograde in Gemini. We knew something would happen to us.

Dear Valhalla friends, take care of yourself. This retro Mars comes seriously and hits seriously. It has no mercy. It hits you from whichever planet it parties with. Zeynep partile to your teacher's Sun, she can't stand up. It partile opposed my Venus, nonsense. This will break your limbs, take it seriously.

**COMMENT:** On my sun.

**O. CEYHAN:** Accident aspect. Square accident aspect from Saturn. A serious position.

Although we know so much defence, we can only breathe and exist. Get well soon. Right now, Mars is both retrograde and out of bounds. The trouble is that Mercury is also out of the border. Mars is out of the border, retro in Gemini and Mercury, which rules it, is also out of the border. When the planets go out of the border, they go out of the Sun's dominance and control. We need to be careful. We can break everything.

And pay attention to this. Some of our friends are less experienced. He comes over your sun or your planet and does nothing. Then it feels bigger. It comes from retrograde on the forward line. In its exact conjunction, it hits the Moon on the day it squares Mercury. It does that in February, March. If it stomps on your sun or a planet and does nothing, know that it is because it is protected by another planet. There is no such thing as "it passed over me and I was saved". It will definitely do it. It is a trap. It comes over your planet, goes retrograde, you say "nothing happened".

**COMMENT:** I'm having a formation like Covid again. I'll get tested again.

**O. CEYHAN:** Watch out.

I ask you all to go to a basic chess course. For those who know chess: Bishop and knight are protecting your king. The other side is going to sacrifice, the pawn will break your chain. You will suffer a lot of losses but you are not aware that the other side is going to sacrifice. This is the behaviour of the planet when passing through Retro if it does nothing.

If Retro's doing something when he's going over it, let me explain it again in chess. How does it come? It's obvious. This guy will come in on the King's flank with his Rook, Queen, wrinkle, come in slow. Broken arm, broken leg, flu. He doesn't show any signs on the other side. He plays like Capablanca, he plays like Korchnoi. Korchnoi and Capablanca are great defenders. He will hit from there. You understand life better when you know basic chess. Some of you may not understand what I am saying because you don't know chess, but those who do understand. I can put it simply: If nothing hit, he's getting ready to sacrifice, he's gonna come harder. If it didn't hit, there's something

protection. Why is that? The Queen is probably protecting the Horse, the Elephant over there. When you look at the map, our Queen, our greatest protection is Jupiter. Jupiter is protecting the planet that Mars is going to damage. The queen makes a deflection move with a pawn. He throws it left and right. The bishop goes down there.

I would like to thank the Phoenix class. The gifts you sent were very impressive. I would like to thank all classes for the beautiful gifts they sent. We feel much better when we encounter your kind feelings.

**COMMENT:** If it hit last year, will it hit this year, teacher?

**O. CEYHAN:** If it hit last year, it will hit this year.

**COMMENT:** 1/7 is exactly opposite Venus.

**O. CEYHAN:** Oops. Be c a r e f u l . It's really hard. Out of the Border. On 15 January, don't think you're off the hook.

Today we're going into rune work in detail. How's it going, Dagaz? Dagaz is an important study. Today's work is actually an introduction to Valknut. We are introducing the structures we will apply in Valknut lessons. Since all Valhalla and Alchemists can come to Valknut, we should have some information in advance.

Make the Dagaz. On the 8th of December, a heavy Gemini full moon is coming. All those who have birthdays on 7-8-9-10 December, 7-8-9-10 June, 7-8-9-10 September, 7-8-9-10 March should be very careful. Dagaz is very clear.

**COMMENT:** I am doing everything you taught, teacher.

**O. CEYHAN:** OK. Well done.

I teach all kinds of information as long as I live. One day we will die too. Exploit my knowledge before you die. What do I do? I open knowledge to you. I open all kinds of knowledge.

**COMMENT:** Hodja, when should those who do not do it start?

**O. CEYHAN:** I told you when to do it, you can start again. Let our other friends tell us how to start.

Exploit this information. The man went to Nepal, Bhutan, England and brought you this information. Use it, I opened my information to you.

**COMMENT:** It was the rune work that I got the fastest results. I also drank ginger tea every day.

**O. CEYHAN:** Sure. Dagaz works the fastest. Ok Af Dagaz protects great, but Dagaz alone is a path opener.

**COMMENT:** Is it appropriate to do rune studies during pregnancy?

**O. CEYHAN:** You can do it. You can do it anywhere you want. You can also do it during pregnancy. I am already telling you what we cannot do.

Let's see, you repeat the dates, so that friends who know will repeat the lesson.

**COMMENT:** Can we have our children do it too?

**O. CEYHAN:** Of course, of course do it.

**COMMENT:** Gemini-Sagittarius full moon and new moon follow-up 14 days.

**COMMENT:** Hodja, I have travelled this 1 month, do I need to take it with me.

**O. CEYHAN:** Yes. Take it with you.

**COMMENT:** I will start the Dagaz study after the Gemini full moon.

**COMMENT:** Gemini-Sagittarius new moon full moons, Sun conjunct Jupiter.

Yes, it is as simple as that. Dagaz is done within 14 days in the period following the Gemini and Sagittarius full moon and new moon. It is also done in the new moon and in the full moon.

**COMMENT:** Hodja, you said Dagaz at dawn, but since I am at work at that time, is it okay if I do it a little earlier?

**O. CEYHAN:** It can be done at dawn or 2 hours before dawn.

Dagaz is very effective in Sagittarius-Gemini full moons. Because Sagittarius-Gemini full moons are related to spring. There are different uses but this is the simplest one. It can be done very clearly in good full moons like Gemini-Sagittarius. It can also be done in new moons, but it gives the strongest effect in full moon. Dagaz means dawn. Dawn means to start again. Therefore, it is started at dawn. You can do it at dawn on Sunday, the solar day. These are the most powerful moments.

**COMMENT:** Teacher, there is no east front in my house, what should I do? I want to start on Sunday.

**O. CEYHAN:** There is. There is a wall on the east side of your house. Can you have no east in your house?

**COMMENT:** 3 bars or 4 bars. 792 times. 24 repetitions during the day.

**O. CEYHAN:** 24 Days 792.

**COMMENT:** Can we do it on this Sagittarius full moon?

**O. CEYHAN:** Yes, you can.

**COMMENT:** In the form of a spear and with 4 candles and yellow light, if possible, 24 days 792 times in the eastern direction is called Dagaz.

**O. CEYHAN:** Yes 792.

**COMMENT:** Hodja, when we plant the sticks in the garden, do we need to be at the beginning when repeating Dagaz?

**O. CEYHAN:** No, no.

Call out "Dagaz" 792 times for 24 days, 792 times in the east direction, in the light of a yellow candle next to 4 pieces or 3 pieces of wood in the shape of a spear. After that, you can also say "Dagaz" 24 times a day.

**COMMENT:** Hodja, I am trying to remember the numbers while counting.

**O. CEYHAN:** There are zikirmatics, buy a zikirmatic.

**COMMENT:** Hodja, we will write Ok Af Dagaz in runic behind them, right?

**O. CEYHAN:** Yes, you will write Ok Af Dagaz in runic.

It is repeated 24 times a day. The colour is gold, yellow saffron. If necessary, you can paint the stick with gilding. You can paint it golden yellow.

**COMMENT:** Teacher, is it okay if we engrave it on a gold earring?

**O. CEYHAN:** It's so powerful that if you engrave it on a gold earring, it will be beautiful. Tell your Gülnihal teacher, Anka Collection will make it for you. Okay, it is useful to engrave it in gold, but use gold glitter for such a powerful rune. We already use gold, platinum, silver in everything, money is going. At least go and use gold glitter. Yellow coloured fruits. The number 33 and the number 24 are important. How does it work? If it feels good, say "very, very good".

**COMMENT:** Very good. Good, thank you.

Call it Ok Af Dagaz, call it Dagaz, it doesn't matter. Ok Af Dagaz is more to protect. Dagaz is for restarting things.

**COMMENT:** Hodja, the northeast facade is a wall and does not get sunlight. Is it okay if I repeat 792 times at sunrise looking at the wall?

**O. CEYHAN:** Yes.

**COMMENT:** It caused me a lot of back pain and muscle pain.

**O. CEYHAN:** I will tell you about that too.

When we first started Valhalla, maybe you had some special 'abilities', maybe you could not use them enough, and some of you were woody. You had no special spiritual ability. Some of you were born with it, some of you were a little open, some of you were not even aware of it. But we have come to this stage, to lessons 33-34, what has happened? Many of you have started to reveal your special talents and you have become stronger.

**COMMENT:** You said to repeat 24 times during the day. After doing it at dawn, will we do it 24 times during the day? I am confused.

**O. CEYHAN:** Yes, you can do it 24 more times during the day. We call these "renewals". You can do it if necessary. It is being activated. Why? Because your pineal is activating. That's why I call it woody. Don't be offended.

We're working on the pineal. That's what I've been telling you from the beginning. Everything is about the pineal. What happens? As a result of the culture you grow up in, what you eat and drink, your parents, social and emotional obsessions, the crises we have experienced, the traumas we receive from Saturn, Uranus, Chiron, our pineal closes, that is, it calcifies. It cannot work sufficiently because it is calcified. The aim of some of the studies we apply here, which may seem interesting to some of us, strange to some of us, very true to some of you, is to correct, balance and bring the calcification of your pineal to a line,

is to fix it with descender and start your own spiritual initiation processes. This is esotericism.

### **RUNE STUDIES**

What did I tell you about runes? I said pre-Atlantean, maybe Hyperborean knowledge. Rune lore is connected to Hyperboria. Hyperboria is also related to Atlantis. Most of the training in Valhalla is already Hyperborean training. The most important feature of Northern knowledge is their bizarre studies. Why are runes strange? Because it is related to the north and the Göktürks. In other words, as Turks, we have the structure of using rune energy in our DNA. You cannot work with an Italian as well as a Turk. You cannot work with a Greek. You cannot work with a Spaniard very well. The men you can work with are Turks, all Scandinavians except Finns and English. Anglo-Saxons. The English work very well. Normans, French, Germans work very well. These need to be activated in DNA.

**COMMENT:** All of your talents are activated in Valhalla.

**O. CEYHAN:** Yes.

Your power of intuition, your dreams, your perspective on life, your mental space expands with rune work. Runes have a feature, they can be worked by mixing. There are 24 root runes. The Nordic rune system with 3 8's. Göktürk alphabet, Futhark alphabet and Nordic runes are exactly the same. Since our roots are Turkish, since we are the Göktürk lineage, this activates a DNA related to the sacred lineage. Göktürk means "those who come from the sky", in the same way this Gleipnir is the same.

**COMMENT:** Why are the Finns separate?

**O. CEYHAN:** Because the Finns come from a separate branch. Certain studies activate the DNA of certain cultures. It activates some information in our origin, in our DNA, in our roots, maybe ten thousand years before Christ. That is why it is important. Everyone can study rune. But we can work better.

**COMMENT:** Hodja, I feel like I am flying in the lessons.

**O. CEYHAN:** Yes. Valhalla academy is actually like Harry Potter academy.

Incredible work is done with root runes. Root runes are personalised with various bijams, creating core runic individual systematics. These are runic works made by combining different runes. These are the subject of advanced rune trainings called Valknut. In short, there is a core system of 24 alphabets. There are 2500 sub-combinations formed by various combinations of these 24 alphabets. I know 2500 of them, it can increase even more with various variations. They say there are 37000, but you can use 2500 of them. This is a giant system. It's actually a matrix coding system. We live in space time. This is a software system in space time.

Why are runes important? Because there is very little information about runes. Why is that? Because they were used by completely closed societies. The Göktürks left very little information, almost nothing. Even in the Nordic period, when Ragnar, the great commander of Scandinavia, started to colonise England with his wife Lagertha, it is not known exactly what runes are. They look, ancient cultures say, what is wrong with these men called Vikings (Viking means "sea bandit")? The Anglo-Saxons are looking, the Franks are looking. The most powerful Viking wars were actually the Danes, the Danes. England was already discovered by Norwegian Vikings. But the Danes invaded because they were the most savage. Danish Vikings invaded. The Swedes are less, they are already connected to Russia. The people of that period were researching and trying to find out. They say, what kind of a society are the Vikings? When someone attacks you, you try to get to know your enemy. They send people into them. Anglo-Saxony is a post-Roman region. Because it is post-Roman, it is not a simple region. There's a lot of information about the Roman Empire. Only one thing is said about the Vikings: These men have no art, no music, no painting. These men were archaic, primitive, they lived on fishing, sailing, plundering. They do not know writing, they do not know art, they do not know proper music, but they have runes.

On the other hand, you look at the Gokturks, you look at the Orkhon Inscriptions. There is a language called Gokturkish, and there is also the Futhark alphabet. What is Futhark? Göktürk is related to Futhark. You study the Naymans, you study the Merkits, they use rune symbols in shamanic studies. Naymans are Mongolian tribe, actually Turkic Mongolian. The Naymans are Turkic. Merkits are more Mongolian.

Firstly, runes are not a writing alphabet. Runes are not a book alphabet. It is not such an alphabet. Sanskrit is a book alphabet. Writings are written in Sanskrit. Mahabharata epic, Bhagavad Gita have been written in Sanskrit. The Vedas are in Sanskrit. We know that Sanskrit is the oldest language of the world. It has 108 letters. But what are runes? There is no book, no stone writing. It is a symbolic alphabet. Even with Coptic, which we call ancient Egyptian hieroglyphics, many tablets, many things were written. You write the culture and heritage of ancestors, epics. But none of this is written in runes. Runes are not used for this.

Of course, there are very serious speculations about runes. I have been to Norway three times for this work, Iceland, Sweden, and most recently I went to Finland with Zeynep Hodja. We have been everywhere for this work. There are some people in these regions. You know that the British have Anglo-Saxon runes, they have a field of use. There are Germanic runes. Vikings are already the northern Germanic race.

**COMMENT:** Can runes open a portal in consciousness, teacher?

**O. CEYHAN:** They do.

**COMMENT:** I didn't understand why it was so dense in Denmark. Now I understand.

When we analyse its origins and history, we see that it is related to the Germanic peoples. Germans = Germans. Northern Germanic peoples are the Northmen called Vikings. The Germanic peoples are called **Wotan** lore. The name of Wotan science in the north is Odin science. Wotan is the god of the Germans and Odin is the god of the Northmen. In all Germanic tribes, runes are a way of life. But not only

It can work for people who have elitism, who have reached a certain initiation, who have reached a certain energy. For this reason, I started the runes after the 33rd lesson.

I activated your aura, I taught you self-initiation techniques. What did I do? I used radiesthesia rods, I used bowls, I used wine, I worked on your pineal with many methods that may seem very strange to you. And what happened? You have been activated. Now you can gradually use the rune.

I found it in Baron Von Sebottendorf's books. As you know, I and your teacher Erhan Altunay are after the Baron. Your teacher Erhan is after the Baron, and I am after the Baron. You remember why, don't you? Why are we after him? Did I ever tell you about Baron Von Sebottendorf? This person is a different identity. Baron Von Sebottendorf is a strange personality, but Goebbels is a normal personality? Is Adolf Hitler a normal personality? Is Göring a normal personality? Why does the Black Dahlia exist? In short, the Nazis have a mysterious esotericism.

**COMMENT:** Fairy tales come true as they are told.

**O. CEYHAN:** Yes, fairy tales come true as they are told.

The Germans are living in a period we call "before Baron Von Sebottendorf". Albert Einstein is one of them. But he crossed over to the other side. These men are doing great research. Let me tell you where the Baron comes from.

### **BARON RUDOLF VON SEBOTTENDORFF**

His name is Rudolf Von Sebottendorf. His real name is Alfred Rudolf Glauer. Look at his astrological chart. I'll give you the information. He was born on 9 November 1875 at 11 am in a city called Hoyerswerda in Saxony, Germany. He died on 8 May 1945 in the Üsküdar district of Istanbul.

He is the founding philosopher of all Nazis and Nazism. He is the greatest of the founding philosophers of Nazism. Adolf Hitler recognised him as his chief teacher. He was a German occultist, politician and student of Guido Von List. I've been chasing this guy a lot. Guido Karl Anton List. Some of the runic information I've given you is from this man. He was born on 5 October 1848 at 12:30 in Vienna, I have a map. He died on 17 May 1919 in Berlin. He was a philosopher, historian and writer. He was the teacher of Adolf Josef Lanz (Jörg Lan Von Liebenfels), the teacher of Rudolf Von Sebottendorff and the person who reminded the system of neo-German paganism and the mysterious world of runes. His name was Guido Karl Anton List. So you have learnt their roots very well. The things we tell you are not the things Oğuzhan Hodja just throws out of his head. You should know where the roots of these things come from. It will be necessary for you in the future when you give these trainings. Never, never try to give training without finishing Valknut because it is hard work. First of all, you need to understand what these are.

Rune work is not like "I feel good, let it be good" or reiki work. The good ones are good for you (like Dagaz), and the bad ones will make you crooked. Roots, practices, trials, errors, struggles... I am the person who reminds you of this in the world and I have the knowledge of this root. I teach you this, and you should know that this is serious work. When you say, "How does Oğuzhan hodja know all this?" these are the roots. I am a hunter of esotericism and knowledge, you know who I am. Your teacher Erhan Altunay is the same. I am 52 years old, I spent the last 24 years looking for Baron Von Sebottendorff. I searched for the Black Baron. 3 of his main graves, his books, those 15 crates... Erhan Altunay gave his life, Aytunç Altındal gave his life, Ata Nirun gave his life. You should know these things. There are people among you who are interested in esotericism and spiritualism. Know the roots, go to knowledge from the roots. Therefore, know. Otherwise I can teach you 200 kinds of rune here. This is not the goal, the goal is to know the root.

**COMMENT:** Digestion is a must, teacher. It is not a simple system. Depth is essential.

**O. CEYHAN:** Yes. For this reason, rune is a serious business. The root it comes from is a serious business and a dangerous business. Why is it a dangerous business? It is not the work of a child. It needs to be balanced, it needs to be within certain systems and mechanisms. As everything has a power, runes also have a power.

Erhan Altunay found some, I found some, Aytunç Altındal found some, but we could not find the main structure. None of us could find the main system.

**COMMENT:** Actually, we are actually worrying with the essence. Of course, it should also be with care.

**O. CEYHAN:** Yes, that's right. It should be with care, it should be with care, it should be conscious, it should be serious.

Baron's Saturn is at 19 degrees Aquarius. Isn't Saturn at 19 degrees Aquarius right now? How do we know, maybe one of you? The Baron is thought to have three tombs, none of which contain the Baron, remember that. Inside those tombs are those chests. Maybe someone will find it. Someone, maybe 15 years from now, Oğuzhan hodja will say that he mentioned this man, maybe he will encounter a very important information, maybe he will change the world.

**COMMENT:** We swore an oath to go deeper into the depths of esotericism and occultism. There is no turning back now.

**O. CEYHAN:** I will work one-to-one with many of you, I am sure. Look, I gave you their maps, I gave you who the men are. These are different things.

**COMMENT:** What if they found the grave?

**O. CEYHAN:** If they found it, they would use it in a very exciting way. The structure and technology used by the men is unbelievable, incredible.

We'll probably work together for years.

This man is very important: Guido Karl Anton List. He is an incredible researcher of Neopaganism and historical Pagan beliefs. Old Gilmore books are being recovered from relatives in the Moravian regions of the southern Austrian province of Moravia. In the Moravian region, St Stephen

He found it in some chests inside the Cathedral. There are some Pagan buildings around St Stephen's Cathedral, he finds them inside. In his books, he says that he was impressed by these places and that he found some Gilmore spell books and some special books written with runes belonging to the Germanic people. He died on 17 May 1919 in Germany. He also worked as a leatherworker. He had a very serious Germanic thought. He wrote a novel called "Carnuntum", if you can read it you will like it. In 1888, he used secret runes in the book "Carnuntum" in some German words. The book is in classical German and it is a difficult book. He wrote from a romantic point of view about the superiority of the Germans over the Romans and sacred love and so on. In addition, very interestingly, he was the teacher of Baron von Sebottendorf and the teacher of Jörg Lanz / Lanz von Liebenfels.

**Adolf Josef Lanz** was born on 19 July 1874 at 16.30 pm in Penzing. This area is north of Vienna. He died on 22 April 1954. His other name was Lanz Von Liebenfels. He was an Austrian broadcaster, paganist researcher and Rune scholar. He was a former priest, antisemitic and anti-Semitic. Lanz von Liebenfels, one of the most important people in the development of Nazi ideology in Germany, defended the idea of Germanic paganism and claimed that the Germanic people were a people descended from the Aldeberan Star. He is the father of the Swastika symbol. In all Paganist sources, he is mentioned as the person who wanted the swastika to be used by the Germans. Lanz von Liebenfels, who devoted himself to the rebirth of Scandinavian paganism, worked for many years with Baron von Sebottendorf. Between 1945 and 1952 he lived in Istanbul. Where did he live? He lived in Üsküdar. It is even rumoured that one of his wives is buried in the cemetery in Üsküdar.

Their main belief is the Wotan belief. Liebenfels himself said that he worshipped Wotan, also known as Odin. Baron Von Sebottendorff was also a Wotanist and worshipped Odin. When Von Sebottendorff and Liebenfels came to Turkey, they communicated with Nihal Atsız and his team and established a group related to Turkism and the Turkish Aryan race. The name of this group is "Thule Sect". It is the structure we call Turkish Thule. Nihal Atsız and the nationalists of that period were also Tengriists. Von Sebottendorff and Nihal Atsız accept that Wotan and Tengri are the same entity.

**COMMENT:** You said Teuton knight in the last lesson.

**O. CEYHAN:** Yes. They are both Teutonic knights. Teutonic is a Pagan knight.

The most important feature of knightly orders is this: All knightly groups are Pagan in their roots, and seemingly connected to the Catholic system. The most prominent are the Temples and Teutons. The Temples and Teutons are actually Pagan, but in the outside world they show that they serve Catholic Christianity. They are Pagans disguised as Catholics.

**COMMENT:** Uskudar and Beykoz are sublime regions. There is a reason why they stay here.

**O. CEYHAN:** Yes. Besiktas. Telli Baba. Bosphorus protectors. Yoros Castle. Yusha Hill. These places are a bit of a cover, actually. Catholicism is a cover for the Temples and Teutons.

What other knight orders were there? I told you last time. Lazarus, Hospitallers, Green Cross. Among them, the Green Cross is good. The Hospitallers are the Italian ones. San Marino. St Lazarus is interesting.

We live in a very interesting city. The name of our city is actually Byzantion, the next name is Constantinople. What is Constantinople and why is it important? The first holy city in the world is actually Jerusalem. With the holiness of Jerusalem and its capture by Rome, many of the knowledge in Jerusalem and the Temple of Solomon was lost.

**COMMENT:** They are not hostile to us, Lazaruses.

**O. CEYHAN:** Lazaruses are not enemies to us.

**COMMENT:** The black soldiers of Christ.

**O. CEYHAN:** Black soldiers of Christ. Lazaruses are good with us.

Now think of it this way: Something is happening in the world. Some catastrophes happen. Generations pass. Now imagine, if there was a great flood right now and everything was destroyed... That mobile phone will be a sacred relic for them in 500 years. The mobile phone is a sacred relic for them, because they don't know. It sounds like a mobile phone.

Where did all these relics go? To Rome, of course. Emperor of Rome. The capital of the empire. And some of the mysterious information is being moved to Paris. Paris is more mysterious, more occult. When Imperial Rome came to the point of collapse, the capital of the empire was Constantinople. Unfortunately, the importance of Istanbul is not sufficiently explained to us Turks. After the conquest of Constantinople by Fatih Sultan Mehmet in 1453, we constantly beat and kill the black and evil Eastern Roman Emperors in Cüneyt Arkın's films. With the Black Murads, Malkoçoğulları. They are poop for us. Yeşilçam has a very bad influence here. The Roman Empire and the Byzantines are shown as evil, dark, ignorant people with no knowledge. We Turks, with our intellectualised, white bearded grandfathers, our honourable girls, women, babies... This is a social engineering to destroy the Byzantine culture. As a result of this social engineering, we do not know Byzantium before 1453. We don't know the Scutari garrison, the Üsküdar garrison. We do not know Khalkedon, i.e. Kadıköy. We don't know Byzanthion. We do not know the legends under the Galata Tower. We continue to destroy this city by living in Istanbul, which has been declared the third holiest city in the world, in a city with very serious religious rites and rituals, in a city where esotericism is as important as Paris, as important as Rome. These things are never taught to us, nor will they ever be taught to us...

**COMMENT:** They especially kidnap what is ours from us so that we don't find out. And we let them until today.

**O. CEYHAN:** To learn because Khalkedon. We are in the land of the blind.

Let İlber Hoca come and explain this. I will tell you, but when I go on the media, radio and television, the bigots will attack me saying, "Who are you? Do you know the reason why Emir Timur fought against Yıldırım Beyazıt in the Battle of Ankara? As far as I know, I also told you about Khwarizmi and Alevism. Because Emir Timur was not a Turk-Mongol, Timur was a Turk. The Ottoman Empire turned into a dynastic state before the Battle of Ankara. The Ottoman dynastic state was formed and the Greek language started to be used. Basit lost his Turkishness. The reason why Emir Timur came to Anatolia was to re-establish Turkish unity. The man came to establish Turkish unity,

He slaughtered Yildirim Beyazit. What happened? Turkish beys rebelled in Anatolia and Anatolian Turkish unity started to re-form. It is necessary to know history well.

In the rune lesson, we went as far as Von Sebottendorff, Von List, Liebenfels, but I am like this. You need to know even Von Liebenfels when dealing with runes. I am disturbed by this:

1-In Turkey, people's mouths don't fill bags.

2- People like to stone the tree that bears fruit.

3- The student who seems to be the closest will wear the giaour cross on his back.

For these reasons, let me tell you the roots of this information, where it comes from. If your students ask, you tell them too.

**COMMENT:** We are all ignorant after all.

**O. CEYHAN:** You are not ignorant, you want to be left ignorant.

**COMMENT:** Classic unchanging issue.

**O. CEYHAN:** Yes. It is the classic unchanging issue.

**COMMENT:** We don't know anything, actually. Unfortunately, we were told nonsense history.

**O. CEYHAN:** This is not your fault. It is social engineering. I understand the people who try to hit us behind our backs, that's how they know. Jealousy should also have its limits.

We look at it like this: What would have happened if the Nazis had won the Second World War? What would have happened if Stalin had won? Or what would have happened if the Japanese had won? Believe me, nothing good would have happened. Nothing better than this. We, the human race, have never found the good. I am sure that what is now called tu-kaka would be truth, realism. What we call science today would also be rubbish. Whoever is the ruler, whoever is the king, his word is his word, and even science develops in this way.

There is a fraudulent organisation called the World Health Organisation (WHO). There are vaccines approved by this organisation. We didn't say a word, we didn't say anything. Most of the people on the street call these people "scientists". as an epidemic. Since last year, there has been an epidemic of heart attacks, an epidemic of lung cancer, an epidemic of brain haemorrhages. Four times as many people died from the vaccine as died from the disease. But you can't explain this. Trump struggled a lot with them, they drove him crazy. A fake doctor was caught again today. 2 more were caught last week. The inspector who checked the fake doctor turned out to be fake. What more will come out in the next 6 months, this is the Mars-Neptune square. How do you know that the person who tells you to "give that vaccine" is not a fake doctor? There will be fake professors very soon, you will see. Most of the doctors who are currently labelled as 'real doctors' are not real doctors. They have taken Fetö exams or entered school with the exams of I don't know what sect, they were given exam questions in sect schools, all authorisation documents for professorship and all courses were handed to them. Which professor should I believe to be real now? What is real and what is fake in my country? Go to a doctor over 50, go to an architect over 50, go to anyone you find over 50.

**COMMENT:** Last year, the health minister said that many more people would die from the virus in the next three years. I didn't understand how he said it, but I saw the video.

**COMMENT:** You said sensational news in health, professor.

**O. CEYHAN:** Of course. What more will come out, these have just begun. Don't think that anyone cares about you, your children, your spouse. Unfortunately, Zuben El Genubi eclipses, these degrees of Uranus are a wild life struggle. Everyone is thinking about money. Nobody thinks about anything else. Therefore, Oğuzhan Ceyhan Astrology Academy is an astrology family and the wolf pack is a group supporting each other. Everyone should look after each other. I don't believe in any of them anymore.

Baron Von Sebottendorff, Nihal Adsız, then Alparslan Türkeş, then the Grey Wolves, the structures of the Grey Wolves, the Alperens, Turkish Fascism... When we look at it, these are also underlying it. What underlies the Turkish fascist organisation is the main principles and systematics of German fascism, do not forget this.

Baron Von Sebottendorff is Blavatsky's student. Helena Petrovna Blavatsky also lived in Büyükdada. A very interesting family. She received occult education and was a Theosophist. She's developing an Aryan racial science called Arya Sofi. She works on Sufism at an incredible level. He speaks very good Turkish, Arabic and Persian. He is doing research on Turkish Sufism and Bektashism. In 1901, he writes the philosophy of Aryanism. The place where he wrote it was Hüseyin Fahri Pasha's Bursa Yeniköy Kuru Farm. Bursa is where he writes about the origins of Aryanism and Nazism. He receives support from Jews. He receives support from Termudi Jews. At that time, since there was a strong Gul Cross branch related to Sabetayists and Sabetayists in Istanbul, he received some information about Gul Cross and Sabetayism from the Termudi Jews.

Sebottendorff is an interesting character, an interesting personality. In Bursa, there is a masonic order called "Memphis Lodge" which operates in German, and Sebottendorff is a member of Memphis Lodge with the code 364. Hermann Gilbhard also worked with Baron von Sebottendorff in the "Third Light Lodge of the Bosphorus" called "Drei Lichter am Bosphorus", which taught in German. These were not regular masonic lodges. They were unregulated, uncontrolled masonic lodges, which we call "old Ottoman Freemasonry".

Sebottendorff lives the same way both in Turkey and Germany. Between 1908 and 1911, he became interested in Bektashism. In 1919, together with Yenibahçeli Nail Bey and Kemal Bey, he founded a sect called "Turkish-Germanic Union" and became a branch of the Committee of Union and Progress. There was a communication with Mustafa Kemal Atatürk here. In 1940, the Turkologist Nihal Atsız also joined this sect and worked with Sebottendorff.

There's a job Baron von Sebottendorff did between 1924 and 1926. A strange job...

**COMMENT:** Hodja, how do you find Yalçın Küçük? He does a lot of such genealogical research, but I think he started to muddy the waters after a while.

**O. CEYHAN:** We look at the genealogical research we do, not the genealogical research they do. Believe me, I am not interested in others. Because everyone dilutes everything.

Do you know where Baron von Sebottendorff worked between 1924 and 1926? He was the president of the Turkish Red Crescent. This man is the president of the Turkish Red Crescent. You will laugh.

**COMMENT:** No, I asked because I thought they were deliberately muddying it, teacher.

**O. CEYHAN:** You can ask me, but I don't deal with the genealogical books of these men at all. We don't deal with them. I only look at my own research. Yes, he is deliberately muddying it. You can ask me. If there is something I have researched, I will share it, if there is extra information, I will share it. I don't work with anyone except İlber Hodja. I attach importance to İlber Hodja's knowledge.

Sebottendorff is a very interesting person. He did it for blood. He is the president of the Turkish Red Crescent for blood research and genetic research.

He became an Ottoman citizen in 1911. Interestingly, he was the president of the Turkish Red Crescent between 1924 and 1926. He also did it in 1913. In 1920-24, he goes to the east. He conducts research in the east. This man has a very interesting life story. A strange man. He becomes a Turkish citizen and astrologically founds the Thule Society at noon on 17 August 1918. 17 August 1918 at 12 noon.

During World War 2, he worked with Adolf Hitler and Goebbels. In 1944, he escaped and came to Turkey. He dies in Üsküdar. He is one of the 3 people who chose Adolf Hitler as a project. Although it is said that he committed suicide on 8 May 1945, I do not believe that he committed suicide. He was definitely not killed in 45. Based on the information we have, I think he died on 10 December 1965 in Doğançılar Park. I think he died in 1965.

Von Sebottendorff has incredible knowledge about alchemy, the Rosicrucian brotherhood. He founded the Thule Society in Istanbul on 17 August 1918. He founded it in the Four Seasons Hotel. Thule means "north". It's an island 6-7 days away from England. Today, the Americans have an air base on this island northwest of Greenland. Thule philosophy, Thule runes and Gleipnir Eddas are always in Iceland. All the works we use in Valhalla are the Icelandic and Nordic branches of Thule, Gleipnir and Valhalla. Their main work is runic writing. They have incredible studies on runic writings. This is where the Germans welcomed Turkish workers. German-Turkish friendship comes from here. These are the connections between Germans and Turks.

We call these alphabets Futhark because Futhark starts with Fehu, Fehu. Celestial life. Futhark is actually celestial life. In Norse mythology, it means "the wisdom of the sky reflected on the earth". "Runic" is the name given to the study of divination and maji. Vikings and Anglo-Saxons used these structures called Runes. The word Rune means "whispering sacred words to the sky". It is said to bring down the celestial energy in the universe to the earth, and since the energy levels of those who use this information are higher than others, self-initiation, rank and ranges are said to increase. In short, there is an energy in the universe. We call this energy in the universe CHI. It is the art of creating conformist areas in your own life by quickly collecting and using this energy in your body.

There are 3 types of rune work. White, Grey, Black

- White: Optimistic. It is the work done to recover oneself and to protect oneself from negative influences coming from outside.

- Grey: As much as you save yourself, when necessary, it is to react to those who harm you. It is to use this structure for power by thinking only about yourself and your family.
- Black: These are the works in which you use your own environment, ego, self and consciousness to harm another person.

White, grey and black. The runes you learn are only white, but some runes respond to the other side due to their structure, no matter how white we run them. Runes have such a feature. We call people who work with rune "whisperers to the sky". In some of the white rune works, there is a direct reaction to the opposite side. It may turn grey but not black. Remember this. All the ones I have taught so far are white runes.

Most of the rune writings are in the form of alphabets written on stones such as Stonehenge in Sweden, Norway, England. There are over 5000 stones. There are over 1000 stones in Sweden, 700 - 800 in Norway, there are such stones in Denmark.

The runes in Northern Europe are Teutonic style runes used by Teutonic knights. It is a little more different. We have 3 styles here. Runes are in 3 main groups as Teutonic, Anglo-Saxon and Scandinavian. Our working group is Scandinavian. We do not work with Teutonic group and Anglo-Saxons. Scandinavian runes consist of 24 runes, Anglo-Saxon runes consist of 18, Teutonic runes consist of 25 runes. Don't forget these. This is our main introduction. Do you understand how it is, what the structure is, where it comes from, where and how I get the information?

By the way, when people asked me, "Do you know runes?" for years I said, "I don't know runes." For years I kept my runic studies to myself and my very close circle. I can only summarise a science this much in half an hour, 40 minutes. But in the future we will give more details in Valknut, we will work in more depth. It's like digging a well with a needle. The problem is that there are very few records.

We have some rules. You will learn all the runes, but you will not learn how all the runes work. You will learn them in Valknut.

**COMMENT:** Isn't the reverse meaning of the runes looked up?

**O. CEYHAN:** Everything is looked at.

There is a field called "Runic astrology", such as divination using astrology, sky science. In addition, there are also studies with rune stones such as using tarot cards. Runic studies can be done individually as well as for groups. Since it attracts very high energy fields to the body and life rapidly, it causes very rapid developments and changes in life. In short, they are the transition stages of the matrix.

**COMMENT:** Could you talk about the Valknut rings sometime, sir? There are very beautiful rings in Ankara, but we don't know which one we should buy.

**O. CEYHAN:** In the Hugin ring you have seen, there are some runes that you cannot see. They are made by combining shapes and they are mostly specially made for protection and progress.

Valknut is like a key that opens a door. It is all being organised now. Gülnihal is organising everything at Anka Collection.

### RUNE ALPHABET

Let's talk about runes:

							
FEHU	URUZ	THURISAZ	ANSUZ	RAIDHO	KENAZ	GEBO	WUNJO
							
HAGALAZ	NAUTHIZ	ISA	JERA	EIHWAS	PERTHRO	ALGIZ	SOWILO
							
TIWAS	BERKANO	EHWAS	MANNAZ	LAGUZ	INGWAS	OTHALA	DAGAZ

## LECTURE: 34 OĞUZHAN CEYHAN ASTROLOGY ACADEMY-VALHALLA MYSTERIES 2022

You can see the runes. It consists of 3 systems of 8. We know FEHU, URUZ, EIHWAZ, TEIWAZ and DAGAZ. Each of these runes shows very important structures and values in our lives.

**Uruz, Thurisaz, Ansuz, Rahido, Kenaz, Gebo, Wunjo, Hagalaz, Nauthiz, Isa, Jera, Eihawaz, Perthro, Algiz, Sowilo, Tiwaz, Berkano, Ehwaz, Mannaz, Laguz, Ingwaz, Othala, Dagaz.**

Ehwaz and Eihawaz are two different things.

Rune lore is actually the constellation of star divisions symbolised by men in the sky. Every two rune represents a zodiac sign. There are 12 zodiac signs, there are 24 runes.

Fehu and Uruz: Aries

Thurisaz and Ansuz: Taurus

Raihdo and Kenaz: Gemini

Gebo and Wunjo: Cancer

Hagalaz and Nauthiz: Leo

Isa and Jera: Virgo

Eihawaz and Perthro: Libra

Algiz and Sowilo: Scorpio

Tiwaz and Berkano:

Sagittarius Ehwaz and

Mannaz: Capricorn Laguz and

Ingwaz: Aquarius

Othala and Dagaz: Fish.

The runic system has a speciality: The Rune system uses a zodiac called "Icelandic sidereal zodiac". It uses a sidereal zodiac we call "Icelandic sidereal" or "Nordic sidereal". What does that mean? They're above Hamburg, above the 60th parallel. Since it is a civilisation above the 60th Parallel, they do not have the seasonal cycles of the tropical zodiac. Therefore, in the north, in no northern civilisation, there are no tropical zodiacal horoscopes. There is something you should pay attention to: While each of them represents one sign, the constellations also show another sign together. It works like the nakshatras. What happens then?

Fehu: Aries

Uruz Taurus

Thurisaz Gemini

Ansuz: Cancer

Raihdo: Leo

Kenaz: Virgo

Gebo: Libra

Wunjo: Scorpio

Hagalaz:

Sagittarius

Nauthiz:

Capricorn Isa

Aquarius

Jera: It's a fish. Same

way:

**Aries: Fehu, Eihawaz**

**Taurus: Uruz, Perthro**

**Gemini: Thruisaz, Algiz**

**Cancer: Ansuz, Sowilo**

**Aslan: Raihdo, Tiwaz**

**Virgo: Kenzo, Berkano**

**Libra: Gebo, Ehwaz**

**Scorpio: Wunjo, Manaz**

**Sagittarius: Hagalaz, Laguz**

**Capricorn: Nauthiz, Ingwaz**

**Aquarius: Isa, Othala**

**Fish: Jera, Dagaz**

That's how the system works.

So the introduction of Runic astrology is understood. What's going on? We've split it in two, Uruz + Perthro = Taurus. When there is a planetary disturbance in Taurus, Uruz and Perthro work. When there is a problem in Aries, Fehu and Eihawaz work. This is a very interesting Nordic astrology symbolism and way of working. It is constellation symbolism and never tropical zodiac. It is literally sidereal zodiac working. Uruz and Perthro represent the two constellations that make up the sign of Taurus in the sky.

That's not how they look in our northern latitudes. Why did your teacher go to Norway? Why did he go to the northern polar circle of Finland? Because they look like this there. They look like that there, but they don't look like that here. Here the story is: There are no seasons. Sunrise, night, day, night are so secret, there are no seasons. No spring, autumn, summer, winter. There is either summer or winter. Lapland and its systematics.

Don't forget! The whole structure works on the north and the knowledge of the north is the most powerful knowledge. This is how the structure works and it works tremendously.

So you have learnt.

**COMMENT:** Can we use it to heal our shadow sides?

**O. CEYHAN:** It already is.

We are in Tornio, Finland, and we are looking at the sky together. What we see is that the stars are not where we have seen them here. It is not like here, it is a different planet, a different dimension.

For example, we say "Venus Lucifer". Venus Lucifer is Venus Lucifer in our societies. You go to Finland, you look at the sunrise: The sun rises, the sun does not rise very high and sets. In the sky, the retro Venus, which you call Lucifer Venus, has come out of retro from Lucifer. You see the Moon and the Sun, but Lucifer Venus there symbolises a free woman, an independent woman. Of course it is difficult for a man.

You see that the symbolism of women works much more independently and strongly in the northern latitude belts than in the middle latitude belts where there is bigotry, such as Christianity, which oppresses women, does not accept the sovereignty of women, sees women as a sexual object, and even questions women as "human or animal?" as in many Abrahamic systems. There you see a pure, pure energy. There we do not call it "Lucifer Venus", we call it "Freedom Venus", free Venus. Free woman, independent woman, woman who lives her own sexuality. A woman who is not dependent on her man if necessary. A woman who can leave freely when necessary. A strong woman who pursues her own bread, her own life, who can raise her own child alone if necessary, who is aware of the nature of womanhood.

**COMMENT:** Like another world.

**O. CEYHAN:** Yes. How do I explain this to you in the lessons? According to latitude and longitude. There is a Hartman knot every 3 metres on this huge planet. Three metres. The planet is composed of Hartman nodes separated by latitudes and longitudes. It's made up of magnetic fields. It changes as you go northwards. The further south you go, the more it changes. The equatorial zone and the mid-temperate zone is where our culture is now.

**COMMENT:** Last Tuesday I had problems with my narcissistic colleague at my workplace for 1 year, although I told my superiors, they did not take it. I did all the work you gave and drew Fehu on my left arm last Tuesday. Within a few hours, he started insulting me in the presence of another friend who was looking for documents, and they took it away from me within 1 day. The issue I have been dealing with for 1 year has been resolved by drawing Fehu on my wrist.

**O. CEYHAN:** How nice.

**COMMENT:** It depends on the geography where you were born.

**O. CEYHAN:** You are right. Geography is destiny. Let me put it this way: The women we see in the north would be the most important models in Turkey if they wore make-up and lipstick in the Republic of Turkey. She was our bus driver. A man dressed like Brad Pitt was dumping rubbish. In Turkey they would call him "famous handsome". Geography. You look at the guy and say "pity".

You're saying. In Turkey, he'd make a lot of money. The race is beautiful. The man is beautiful, the woman is beautiful, the culture is beautiful.

Celestial life is the sky whispering to the earth. This is not a writing alphabet. I'm asking you. "I've written my daughter's name in runes, teacher, okay?" Don't! Don't do it. "Let me tattoo my name and my husband's name on my forehead in runes, okay?" Don't make me throw my fontanel, don't drive me crazy, don't do such things. There are prohibitions. In runic work:

1-Do not write your names on runes.

2-Do not fall for naivety like tattooing runes on your body. Remember that these are serious.

**COMMENT:** My Norwegian boyfriend in his 20s was a man like Daniel Craig. We didn't appreciate him.

**O. CEYHAN:** That's a shame. You just ate the guy and threw him away.

When something happens to you after you get a tattoo, don't say, "Hodja, it happened to me. What should I do?" Don't say that. For example, if you have an enemy, an ex-lover, a neighbour you hate, or if you want all kinds of disasters, all kinds of filth, giaour, shepherd, swine to happen to one of your relatives (of course, the price of karma is yours), you should have "Thurisaz rune written on your body. Write Thurisaz and Nauthiz and love will come to you." You can even curse his lineage. You can even curse your descendants, even those born from you. Of course, I don't know whether we will be born as a paramesium in the next life, whether we will play with our willy as a green monkey, or what the hell we will do.

Don't forget that they use Thurisaz to do all sorts of dishonourable things to people. Imagine, "He'll bring you love, put Thurisaz and Nauthiz next to it. They have an interconnection marker, bury it with Eihawaz." You say. May his offspring be damned.

Now you're writing your name A-B-C. For example, my surname is Ceyhan. Imagine that these are like A-B-C. You'll start Ceyhan with Thurisaz. I curse you. "May evil and darkness be upon the energy of Loki and dark Thor."

Thurisaz, don't! No cleverness here! No "should we look north or south on the map?" in the rune alphabet! It's whatever I say! Done! No ideas, no production. Their subconscious is working very well, these women, these men. They don't have our perceptions.

Loki. God of fraud, theft. Don't be "Game over". But the sisters in Germany, the Anglo-Saxon sisters, as well as the germs with Mars Retro, Venus Retro, Mercury Retro in the 8th house of the birth chart in Turkey (of course, there will be aspects) are dealing with them day and night. "Should we put raw meat in the rune? Should we pour blood into the lamb's heart?" and so on, they are really dealing with advanced mental illnesses.

Arrow Af Dagaz. The main Gleipnir that can stop the negative energy of all runes: Ok Af Dagaz

Ok Af Dagaz Isa.

Ok Af Dagaz Wunjo.

Fehu Ok Af Dagaz.

It consists of combinations such as Uru Ansuz Thurisaz Dagaz. For example,

**Tiwaz Sowilo Othala Dag Mannaz Perthro Wunjo Hagalaz Nauthiz.** Write the name of the girl you love.

**Isa Jera Raihdo Kenaz.** Write the name of her mother.

**Gebo Wunjo Algiz Sowilo.** Put the intention you want for her.

**Hagalaz Nauthiz Ingwaz Othala Ok Af Dagaz.** And she is yours!

Understand? These are runic bijams. You pasted them and sent them.

But if the other woman knows this: **Ok Af Dagaz Dagaz Nauthiz Isa Tiwaz Perthro Algiz Wunjo Gebo Eihawaz Mannaz Dagaz Dagaz Dagaz Dagaz!** Done! What happened? He's cancelled the oncoming energy. It has stopped. If you tell him: **Thurisaz Nauthiz Isa Jera Dagaz Ehwaz Mannaz Dagaz Isa Gebo Wunjo**, the energy became grey and went to him. You tied him up, it's over. He is finished.

**COMMENT:** The karmic consequence of that?

**O. CEYHAN:** Nobody deals with karma in the Nordics. They die and are born again. The man is gone.

These are combinations. In the structure called Valknut, there are studies on combinations that improve human life at special times and days. The goal in these cultures is to reach Valhalla. What happens until he reaches Valhalla? He dies. Okay, let him be reborn. They say he'll reach Valhalla in his next life. So what happens? He dies and is born, dies and is born. That's the belief. It's not like our culture. You pick up an axe, you have no defence, you walk to the spear. The man takes out his liver and eats you with pleasure. Or you take an axe to someone's brain. What happened? He's dead. No problem there. He's reborn. "I was a runic krav ascend in a past life." That's good. That's good. "Okay, take the sword, brother"... The goal is to gain experience to reach Valhalla. It's not like our culture.

They don't have a culture of ownership. Gleipnir, the Eddas, there's so much more. For example, he falls in love with a woman, she rejects him and he kills her. After that, he gets himself killed. Before he gets himself killed, he has an Odin shaman put the third toe of the woman's right foot and the first toe of his left foot in the same grave and make a "karma boga". He made the karma boga to be his wife when he was reborn. There are bogas. What happened? He killed the girl, and he died for her. Since he died for her, he paid her karma. Gebo made a Gebo, tied them together, and in the next life they were together. And so on and so forth. The karma consciousness of these men is in a very different place. We are still trying to tell people like cattle whether reincarnation is real or not. These men have such strange things going on that you look at them and say "wow wow wow". Their main aim is not to become the Kamil the Human Being. In the Nordic way of thinking, they don't like the Great Man. They like to enter Valhalla and be with Odin. They have the path of Man-Kamil, but they say, "What am I going to do to become Man-Kamil, to merge with God?" They say, "I am living in the flesh. I live in the flesh. I eat my pig, I eat my potato, I have sex with men,

I make love to women, I fly to the sky." It's not a pessimistic culture like ours. We're trying to get the hell out of here. We say, "Come on, let's get the hell out of here." They're not like that. That's why in the north the third toe of the right foot, sometimes the second toe of the left foot of a young girl who has died is quickly amputated and lost or even cremated.

We are pessimists, electricity, petrol, tax office, school fees for the child, libido is already in the ground, we are rubbish. We have a Sunday breakfast, once in a while a friend has a birthday and we eat steak. We send flowers to each other on Teacher's Day, Valentine's Day. Those who have money go in the summer, give 200.000 TL to someone for 15 days, or have a summer house on the left and right, and all the relatives say to them, "We will come to you this weekend, this holiday." The green monkey is happy with us. The green monkey is happy with us, Hector is happy with us. Are the men? They eat pork, potatoes, libido is high, fantasies abound, right and left lakes are full. Then we try to get rid of them, in short, to leave. Are they like that? "Let's be reborn, culture, change, let's fight, hit, break, make love, eat, drink." Such a culture. "What Man of God? I'll go to Valhalla and fight Odin. Odin is the Greatest Man. He'll protect us." We are crawling. Turned inwards. Grey grey lives. "If we get the fuck out, how will this karma end?"

Imagine, the weather's nice, you're on a Viking boat, we're men, the girls are pretty, you're women, they're Brad Pitt, libido's through the roof, you've slaughtered the pig, put the butter on, fried the potatoes, rowed out, and you're going to loot an Anglo-Saxon church. What better job is there?

We're a pack of wolves. A 12-year-old girl beats her friend's 13-year-old girl with a hose, cuts her throat with a knife, and there are teachers, counsellors, janitors and parents in that school. What kind of a monster is he? He can beat someone his own age with a hose at that age? Doesn't the child scream and cry when you beat him with a hose? Doesn't he cry? Doesn't he scream? Doesn't he say, "Save me"? I am very sorry, we have teacher friends among us. Didn't anyone hear that girl screaming in that school? Didn't anyone hear her? It's horrible. Look, I'm raising a girl. Many of you have children. How hard it is to raise a child. You send them to school and they are killed by another child. I felt very sorry for the child who killed her. It's unbelievable that a 12-year-old child can be so violent. I think he had a very bad childhood. I feel sorry for both the one who died and the one who killed him, what can I say. The world has become disgraceful.

I will pass the runes now quickly in the summer.

## FEHU

Financial gain, desire and desire. His name is Fehu. Viking Fehe. Related to iron. Fayu, feyo, fay. Fehu related to the letter F. Latin F. Money, health, financial gain, inheritance, good luck, prosperity. It's a female rune. It's in the number one row. Red. Fire and earth element. The goddess Freya, related to Fe and Re. Aries and Taurus. Plant: nettle. As a tree associated with the black elder. Moss-coloured agate stone is very related to Fehu. Sunday is favourable for Fehu. Increase in income, good luck, new beginnings.

## **URUZ**

Power rune. Ur, Uruk, Uraz, Urus. Associated with A and U in Turkish and the Latin alphabet. Extinct, divine aurochs. Victory, determination, control, self-confidence, discipline, power. Associated with the birch tree. Stone: Garnet. We use it on Monday for magical work. Victory over enemies, health, disciplined work. I've already told you about it. It gives many of your dreams and is powerful.

## **THURISAZ**

It's a dangerous rune. We won't use it. It's a rune of chaos, evil, corruption. Used for magic. Thurs, Thorn, Thurisa. Th in the English alphabet. Thurisaz means "devil", dark beast. Chaos, evil, evil forces. A rune used to lead a person astray. It is used for black magic and grey magic and creates obstacles. It is used to make a bad person look good and a good person look bad.

Runic row 3. Colour: Red. Element: Fire. Male runedur. Controlled by Thor and Loki. It is the dark side of Mars. Its plant is leek and leek flower. Tree: Blackthorn. Its stone: Black ruby and black sapphire. The sapphire stone can also be used in magical practice on Tuesday. For this reason, sapphire has protection against the influence we call Saturn-Satan. Sapphire is protective against these. We don't use Thurisaz and we don't run it. One of the runes we will not teach how to use.

## **ANGUZ, ANSUZ**

Ansuz is another name, but the rune we call Anguz. Ansur, Ansuz, Azaos. It's connected to A. It is related to the letters "e", "a", "i" in the Latin alphabet. It's related to communication, message, news, travelling. Ansuz is the rune of Odin. It represents dream communication. Creativity, prophecy and foresight. A rune we'll teach you later. Concealed knowledge, secrets, travelling, structures related to travel.

A male rune, dark blue colour, related to Odin, Loki and Osprey. Planet: Mercury. A rune that can be dangerous in agreements and contracts. Plant: Fly agaric. Tree: Ash. Stone: Emerald. Used on Wednesday. It is used in interviews, advice, interviews. It ensures the rapid realisation of an event and a situation and has protective properties.

## **RAIDHO**

It is a travel rune. It is very important. That's where the word radio comes from. Raid-red. It's related to rabbit. It's "r" in the English alphabet. Travelling, travelling, reaching a place and merging. Ansuz refers to spiritual communication and communication with people, while Raidho is directly related to travelling. Raidho gives travel, business, overseas travel. It is also useful in writing. It is a productive runedur. It represents travelling and communication around you.

Runic order 5. Element: Air. Male Sagittarius in astrology. It is related to Chrysopras. This rune is an alchemical rune. It is related to alchemical work, the development of the person, the maturation of the person. Of course, we will explain these in more detail in the future. The plant: Wormwood. Tree: Oak. Day of application: Thursday.

It means new beginnings. It is used for a love that has gone, a relationship, the return of a money that has gone, to find a loss. It is a rune used for the development of the human soul, for awareness, realisation, philosophy and development.

The days are not very important because they are Sabottendorff information. There are different days of using these runes. I will tell you about them too, but mostly Wiccans use Thursdays in magical practices.

### **KAUNO, KENAZ**

The fire rune is what we call "the torch of enlightenment". Kauno, Kenzo. The Kenzo brand comes from Kauno. Kaunas, the city in Lithuania, is related to it. Wet, light, warm and bright. Fire is a rune. It means warmth, sincerity, dissolving the shadows of the darkness of ignorance, development of the soul and a new perspective on life, development, activation in relationships such as love. It is used to correct the wrong direction. It leads you to be open to innovation and research. It is a rune related to solving questions about febrile illness and poisoning. Its runic order is 6 and its element is fire. Since it is a female rune, it is related to Freyja. The eroticism of Venus.

The stone: Bloodstone. Plant: primrose. Tree: pine needles. It's given for Fridays. Baron Von Sobottendorff said "for Fridays". It is a rune for discovering your own energy, enlightenment, gaining a different perspective, self-defence against people who harbour dark thoughts. Unbelievable

### **GEBO**

It is also called Gebu - Gebura - Gibu - Gijoff. It is the same as our X symbol. It means love, partnership, forgiveness, skill, talent. It shows the 5th house symbols. Gebo is related to 7, the lucky seven. 7=lucky. Gebo brings luck. Gebo is a harbinger of a talent, a gift. It is similar to the 72 planetary angle. However, Gebo gives excessive romance, you may be harmed by the other person because of this romance. It represents an unbalanced love relationship. The runic order is 7. It shows that you will be weak and weak against the opposite sex. For this reason, we do not use Gebo as a bringer and translation in male-female relationships. It brings love and relationship with the other person, but it enslaves you to the other person. Gebo has risks. There are studies to bring luck, to open luck, to bring the new relationship with luck.

I teach you these in outlines. I will not teach you the main type of work of all of them. I know that there are at least 100 people who want to use Gebo. There will be 1500 people who want to give it to their clients. Gebo is a different practice. Use it if you are going to be in love with the other person, but it is certain that you will be a doormat. If you say "I am very much in love, I will be a doormat" here is Gebo for you! Let's give you Algiz, you will live with a collar for the rest of your life. These runes have many effects.

Don't forget, we're stuck with Gebo. We'll finish them all next week.

We enter the white usage areas in the runes. There are 1-2 formulas for white usage areas. Apart from the information I have told you, I think you will do the writing studies that you find on the internet, left and right. The effect of our lessons will stay on you for 6 months. Even if you all continue Valknut, it will stay for 1.5 years. After 1.5 years, you will probably forget me and these lessons. Some of you will go your own way. I speak from experience.

**COMMENT:** Isn't it ironic to come to individualisation and slavery, teacher?

**O. CEYHAN:** Yes. Isn't the 12th house something like this anyway? You go to individualisation and become a slave to someone, you die, you are reborn. You are right.

In such a situation, you need to do this: OK AF DAGAZ. OK AF DAGAZ MANNAZ SOWILO. When you use the wrong rune in any way, when you do uncontrolled work yourself, this is the work that will prevent the energy from harming you and the other party: OK AF DAGAZ MANNAZ SOWILO.

**COMMENT:** Zafer Özyiğit shared the runes on Instagram.

**O. CEYHAN:** Zafer was my student, but I didn't teach him the runes, he can share them wherever he wants. He was my Astrology, Alchemy and Transformation student. But Zafer Özyiğit is not a Sebottendorf researcher and I did not give him these trainings. He found them on Google, found them on the internet or they are his own works. I know very well who I teach and what I teach.

**COMMENT:** I have had rune training before, but it is very, very different, not even close, teacher. I don't touch it.

**O. CEYHAN:** Who did you get rune training from? If you get rune training from the guys you find on Google, or if you get it from a guy who has received rune training from 2-3 books, it is. But it is different if you get it from men like Baron Von Sebottendorf, Gleipnir or researchers like us.

It's very fashionable now. And don't forget that everybody is our follower. Whatever we are dealing with, someone comes after us and mostly copies it. The information you get here is the pure one.

**COMMENT:** Will you publish a book or material about Rune, Professor?

**O. CEYHAN:** No, I will not. I will give a lot of information to Venus Alya. Other than that, he will die with me. I will give what I found from Baron Von Sebottendorf and what I found from Alan Leo as much as I share with you. There are also some things that should not fall into the hands of some people.

**COMMENT:** Şebnem Ekşib rune book is out.

**O. CEYHAN:** Okay, you can publish it. Everyone finds it on Google, does research and finds it. Maybe they know better than me, how do we know? But you will ask this: Do you know the Germanic rune, do you know Gleipnir, do you know Ok Af Dagaz?

You know better than him. What is Ok Af Dagaz? What is Gleipnir? What is Edna? You won't get hung up on what you see on the internet, that this and that. You have to be open-minded. Not all information should be given. They take it from left and right. Then, if your English is good, you can translate two books and say "I know this". It's as simple as that! You'll pay attention.

I taught Ogham to Zafer Özyiğit. I taught Ogham in Astrology, Alchemy and Transformation. I don't teach Ogham anymore. I left Ogham to Zafer. Keltik is improving himself in Ogham. Ogham was one of the first things we taught in our 'Astrology-Alchemy and Transformation' classes. . Your teacher Oguzhan didn't spend 32 years on it for nothing. Your teacher knows Rune, Ogham, Sanskrit, Kopti, Latin, Arien, Ari, Celtic. I have worked with all archaic languages and archaic field theories.

**COMMENT:** Ogham will give information. It doesn't go into the Runes anyway.

**O. CEYHAN:** Ogham is working. Rune has shared it. How nice, let him share. I left Ogham to Zafer. I don't have to teach everything. If you want to learn Ogham, go to Zafer.

You can say, "Teacher, teach us Ogham in Valhalla." No! Let Zafer teach us. You can say, "Sir, we'll learn more from you." I'm working with runes. Ogham is also a good thing, but I have given my last years completely to runes. Someone should teach Ogham in this country. I no longer teach Horary, your teacher Devrim teaches it.

**COMMENT:** Ogham takes its name from Ogma, one of the Irish Gods. One theory about it is that it consists of lines used for counting.

**O. CEYHAN:** From Ogma, yes. Ogham comes from the Celts. It has sub-fields. It is Celtic. Ogham means Vogan. Ogham Odin, Ogham Vogan.

Remember, the structure we use in Ogham is not like a rune. When you say who is superior to whom, no one is superior to anyone. Each one is a construct. Runes are a complete general structure. Ogham, the Celtic alphabet, is actually of natural origin, it is very lovely, very enjoyable. But I prefer Runic at the moment. I have worked a lot with Ogham, and I love it. It is never wrong.

For example, I left Horary to Devrim Dayioğlu, I don't give Horary lessons anymore. I left health to Olcayto, I don't give health lessons anymore. Our teacher Mine Pakkaner explains Ceres and natural cycles, sky symbolism. She knows better than me. Mine is an agricultural engineer. I don't have to know everything best. Doing everything the best

I don't have to. Victory de Ogham does it, and he does it well. Good for him. Look at it this way, boys. There's bad blood between Zafer and me. I say something and the rumour goes round and round. Zafer is my dear. I'm upset. Three or five parasites get in the way.

I left cartography to teacher Sinem. Your teacher Sinem now teaches cartography. I left synastry to Sinem. I can't give everything. I left finance to Aylin. That's why they call me "the teacher of teachers". Because I leave the things I know to my students, but I always work with them. I help them when they ask me.

These have a speciality. The Nordic system is a chain of combinations working according to the hidden tropical, full sidereal moon positions. Some of the formulas I have taught so far are simple, but there is a structure of the Moon that we call "northern understanding" that comes from the runes. This structure is very important.

I will ask you a question. There will be a lunar eclipse on the 5th of May. Now what kind of a lunar eclipse will this lunar eclipse be? What kind of a structure is it?

In rune studies, even in oghams, we have to look at it from this point of view. They have a special sky symbolism. It is a combination of tropical zodiac and sidereal zodiac and they have a very different perception. The ones I am telling you now are actually working half of this energy because I did not want you to work in the strongest position in the process of 'self-initiation' so that you would not get tired. Each of these has special formulation and Moon structures, otherwise it would not work.

### **5 MAY 2023 SHADOWY LUNAR ECLIPSE**

On 5 May there will be a Full Moon and a Lunar eclipse. A shadowy lunar eclipse at 14 degrees Scorpio. Now what does that mean? On the 5th of May there will be a shaded lunar eclipse. Not total, not partial, but a shadowed lunar eclipse. That lunar eclipse is weird, and the new moon behind it is as strong as a solar eclipse. Now a hybrid solar eclipse followed by a shadowy lunar eclipse.

Have you ever seen a shadowed lunar eclipse? A hybrid solar eclipse followed by a shadowed lunar eclipse. Isn't that weird, guys? Not a total lunar eclipse, not a total solar eclipse. A partial lunar eclipse, not a partial solar eclipse. While the sun is hybrid eclipsed, the moon is shadowed. Isn't that weird?

What is a shadowed lunar eclipse? It means there is a malfunction in the system. It means a child that should not have been born, a stillborn thing, a toxic relationship, a good-looking abscess, "the cancerous mole that the lover sees in his lover". The sky has flashed the king of the sign, full Metaverse. You see a shadowy lunar eclipse in the sky, like a full moon, a little smoke grey, and you can never tell it is a lunar eclipse. It means secret, malignant, accumulation of pus, "beautiful but cruel lover". It is mostly the night of Thurisaz of those who use dark energy and disturb the balances. What we call Thurisaz night is a lunar eclipse. Thurisaz eclipse is the night when the one who knows darkness, the one who knows the negative, the one who is out of balance comes out. The only defence for this is Dagaz. Black magic and evil. Rune number 3, stay away from Thurisaz! Know it, but do not touch it.

The full shadow of the Earth does not fall on the Moon, the Moon's light is slightly blocked and this is not recognised as a lunar eclipse. People think it's a full moon. It is a trap of the system. Crippled children, crippled births, disability, handicapped people, problems arise in the works started.

**COMMENT:** Not everything is as it seems, look behind it.

**O. CEYHAN:** Yes, well done. Not everything is as it seems.

**COMMENT:** They're going to stir things up.

**O. CEYHAN:** It shows what will happen in the election on the 14th. Week of the 14th. Rare shadowed lunar eclipse on a hybrid solar eclipse... Get well soon. I say eat, drink, live, be happy. The Zuben gang is still in the sky.

Ok Af Dagaz! Use this.

I post some stuff on Twitter. Make sure you follow me. Sometimes I give extra information there. We are trying to raise awareness on Twitter. I explained the following on Twitter: There is no full moon in February every 19 years. What is it? There is no full moon in February every 19 years. There is no new moon in February every 19 years. Instead, there are two full moons in January or March, known as double blue moons. The full moon in March is called **Gebos**. The 2nd full moon is called Gebos. If it happens in January, this full moon is **Teiwaz**. What is the meaning of this? In the 19th year after a child is born, since there is no full moon in February, Gebo means that we are liberated regarding love and can make our own love choices. These love choices coincide with the age of 14-15 for some and with the age of 19 for others. In our classical astrology, it coincides with Juno years. These are important cycles.

Do you know the rune of marriage? It has a connection with Gebo. What is done on the full moon we call Gebo or Gebos? Dagaz and Algiz work is done directly on that full moon. Love, marriage, relationship, bringing closer what is destined, attracting a soul mate or twin soul and paying the price for it. This has a price, **when you pay the price, everything happens in karma**. Gebo and Algiz work. It is as simple as that.

They have done a study like this: You may not have everything you want in this life, but pay the price and you will have it in this life! That's what runes are for. What I have taught you so far are the white and free ones.

**COMMENT:** What I can't understand is that we are doing marriage work because there is no full moon in February?

**COMMENT:** Let's all say OK AF DAGAZ against internal confusion, okay? I am very afraid of internal conflict, will it interfere with destiny?

**COMMENT:** Is Thurisaz misunderstood because you say it is related to Gemini and Gemini is related to the Pleiades and Atlantis? Like black magic, misuse of knowledge?

**COMMENT:** OK AF DAGAZ MANNAZ SOWILO are we going to use the formula only against bad Rune energy or against any negative energy?

**O. CEYHAN:** It is used against bad rune energy, sometimes OK AF DAGAZ is not enough, then you use it.

OK AF DAGAZ MANNAZ SOWILO  $16 \times 24 = 384$ , the number of this defence is 384. When you feel a negative energy, do the OK AF DAGAZ MANNAZ SOWILO 384 times. It will explode in an instant and you will be purified. It is the main protector, but they also have their uses.

Next week we will study the remaining runes, everyone memorise them. You can share the articles you find about the meanings of the runes. Runes are special studies. There is a rune for everything. There is a plant growing rune, there is a fertiliser rune, there is a blood stopping rune. To use the runes, work with your radiesthesia rods every day. If there is no energy, the rune will not work.

What are we going to do in Valknut? I will teach you how to cast runes. Casting runes is of great benefit if you can use tarot and runes well. I love rune casting and divination.

**COMMENT:** Does twin soul mean soul twin?

**O. CEYHAN:** Yes, soul mate, twin soul, but pay attention to one thing. I have said the following about soul mates, a soul mate sometimes gives you a bad time. Therefore, the one who comes with Gebo is better. Algiz, Wunjo is a bit difficult. Not every soul twin comes to love, sometimes it comes to beat.

**COMMENT:** Can we learn by prophecy what the price is?

**O. CEYHAN:** Do you know what the price is? There are 3 prices. What I have taught so far has no price, but some rune works have a price. For example, according to the combinations in your birth chart, you have made mistakes in your past lives due to the relationships between men and women, but these mistakes are serious mistakes. Therefore, you should not get married and have children. If you work on a Shadow Moon night, in Gebos or Tiwaz, you will pay the price.

Gebos comes, (rune number 7) you will be happy for 7 years, you will live everything in the relationship between man and woman for 7 years, but after Gebos, one by one other runes-Hagalaz, Nauthiz, Jesus, Jera, Perthro, Sowilo, Tiwaz will be given to you. You will crawl for the remaining 18 years. The price is that love, affection, sexuality will come, but there will be a lot of pain in the future. I've seen it in many people, they'll live it all.

I have not done magic and maji work with runes or ogham, I have not touched any human being. I have only taught protection, development, self-protection, the work that solves the unfortunate situations and difficulties caused by the negative energy around you and the negative energy coming from the other side, the deposits crystallised around us by our karma bonds. These are important, you are conscious people. Some people use them for such strange things.

One of my female clients wanted to have a child, she said, "I will have a study with Ogham, I want to have a child". Magic is a different thing. We call it energetic karma transfer. I told her; "You will suffer a lot as a result of such a work, don't have it done." She went abroad and had this work done and had a child. The cost was very heavy with a severely autistic child. These are called "karma transfer, energy transfer or metaverset displacement". I never go into these.

**QUESTION:** Is autism related to magic?

**O. CEYHAN:** You don't understand. Autism is not about magic. It is a difference in perception. That's why we don't give it all. As a child who shouldn't be and a woman who shouldn't have the experience of being a mother, if you tamper with the system in the Metaverse and load some heavy mechanisms into the system, then you will pay the price. It is said, "Take your child", but the price is an autistic child. He pays a heavy price.

**COMMENT:** When you disrupt the flow, the system makes you pay the price.

**O. CEYHAN:** When I was teaching you the sciences of maji and magic, I told you that a mechanism has a system that turns itself. If you disrupt a mechanism in any way, it takes an average of 3 months to 1 year to recover itself. When you repair the system, you are on foot.

Ogham is a little softer than runes. There are also "Enochians", which we call "high magic studies". In the Enochians, which we call high magic, karma, we have two language types called Enochian Angel Language and Enochian Demonic Language.

When we say high magic, there are two fields, Enochian Angel and Enochian Demonic. Red magic and Woo Doo are high magic techniques. In addition to these, the dark side of ogham and the shadow side of the runes are also included in high magic techniques.

**COMMENT:** My friend insistently wanted a child for years, divorced a good wife. The child is a very problematic girl and there are all kinds of contradictions, including drugs, her whole life has been full of misery.

**COMMENT:** What is Sigel?

**O. CEYHAN:** Sigel is like the birth chart, the soul cycle, the karma cycle.

These are the source code of the system. With the right energy and at the right time, you can enter the source code of Windows and make software changes within the system. Do you understand a little better how the Metaverse works? There is an open source code, what we call the back doors of the system. Those who deal with Islamic magic, hodjas, jinns also deal with them.

**COMMENT:** The tiny magic of the Druids.

**O. CEYHAN:** Yes, the tiny magic of the Druids. But the problem is this. Except for a good rune master, a good oghamist and a good northern astrologer, neither the Islamic astrologer nor others may know anything. There are few good ones anyway.

The rule is that by having a child obsession in your natal chart, you are disrupting a structure in your 5th house. For this reason, the spell has a butterfly effect and is bad. What is the 5th house? Love, dating and a really serious relationship. What will the 5th house give you? The system has back doors. You're obsessed with the child, but the 5th House can give you real and good love.

Let's look at the situation, you will not be able to have children due to harmful aspects in the 5th House combination, you will have your marriage, you will get divorced, but after that you will have a wonderful love affair and you will die there. This is written, this is your field of experience.

**COMMENT:** This is how they destabilise the world.

**COMMENT:** He says if you try to change the code of the system, you will learn your lesson.

**COMMENT:** 5. I have Chiron in my house, he didn't give me a child.

**COMMENT:** I have Lillith.

**COMMENT:** Is it bad again to intervene with esmas in a chart that has no children?

**O. CEYHAN:** Of course it's bad, it doesn't matter, Esma is Islamic, Rune is Nordic.

**COMMENT:** Our lesson is not Esma, but in this case, wouldn't the system functioning be disrupted with the works done with Esmas? They should have the same price.

**O. CEYHAN:** No, it doesn't work like that, I have to explain them to you. What will you do with the esmas? What will you do with our Fehu work? You will protect yourself with Dagaz work, you will earn some money with Fehu. These do not break the system. You are making a direct change in the system. Special eclipses such as 5 May, 19 May, hybrid are important for these. Special moments and special studies are necessary, otherwise the rune studies we do are simple. The mantra is a little stronger than the essence.

**COMMENT:** These are as important to use as we use painkillers when we have pain, since there is no system change, I listen to you hungry for information.

**O. CEYHAN:** It is necessary to see this well, what will this person lose if he has a child? If you give something extra to a house, you lose something in that house.

There are simple, medium and powerful practices. The rune works I have taught you are simple works.

I explain how the system works: For example, Filiz came to me saying, "I want children". I said, "Don't do it." Your fifth house is bad. She didn't listen to me, she found someone and had it done. You can do it with Enochian, ogham, rune or Ilm-i Ledun (Islamic study), but it is a deep study, not a simple study. You did the work, the girl was fertilised, the child was born. You gave a different direction to the 5th House. There is someone who has chosen a common destiny with Filiz. Both of you will marry and leave, and after that there is someone called Ahmet with whom you will live a wonderful life. The moment you did that, you froze Ahmet. This is called "freezing point" in Dharm. You froze him because you did not know that Ahmet was coming. You are married to Faruk and you want a child with Faruk and you have a child with Faruk. The child is autistic or died in an accident at the age of 12. You couldn't leave Faruk, what about Ahmet? What did you do with Ahmet? You divorced Faruk, you are trying to live your life with an autistic child. What about Ahmet? Ahmet was going to have a great love with you.

**COMMENT:** Interference in fate.

**COMMENT:** Ahmet is a big creditor, it's a pity.

**COMMENT:** Ahmet became a lie, Ahmet's karma.

**COMMENT:** Ahmet was out of the system, he could not enter Filiz's system.

**O. CEYHAN:** Do you know why it is said that magic is a sin? Magic is neither a sin nor a good deed. Magic is the biggest sin against yourself because you harm yourself and it is a sin because you harm others. Why has Islam forbidden magic? Because people are not aware of this. It is not easy to explain these things to people in those years, in that period. People are archaic. Ahmet's life was stolen.

**COMMENT:** When I first started training, my teacher Zeliha woke me up, thanks to her. I learnt to be happy with my cats without love.

**O. CEYHAN:** You are probably a zafiran. How old are you?

**COMMENT:** 41

**O. CEYHAN:** 41, full zafiran age.

**COMMENT:** What will really happen to Ahmet's life?

**O. CEYHAN:** What happened, Ahmet has no one in his life, but there is someone waiting in reserve. For example, there are celibacy planets in his 9th house, but there are Jupiter and Venus in his 7th house. Nothing happens to the girl during solar eclipses because she is zafiran, on standby. She's 46 years old, what does that mean? It means a backup identity that will be activated in any way through reincarnation and external intervention in karma. This backup identity comes to Ahmet. But the task to be assigned to him will sometimes be at 41, sometimes at 46, sometimes at 70. Synchronicities. You go and look and say, "What a beautiful woman, a woman full of life, but there is no one in her life," or you say, "What a gentlemanly man," but he is also a zafiran.

What happened here now? They burnt Ahmet, but Zafiran came into Ahmet's life, she gave Ahmet the happiness he should have had with Filiz. He did not burn Ahmet, but what happened to Filiz? Filiz would have lived a very beautiful life with Ahmet, both materially and spiritually, but it did not happen. 5. She ruined his house, she kicked his arse. Then she says "my life is so bad" with the child. That child is not at fault, that child is a different being. Therefore, Enochian, Ogham, Runic substitutions should not be made.

**COMMENT:** Could Ahmet also be that child's doctor?

**O. CEYHAN:** Yes, it can be. Karma works differently, dharma has 108 dharamsala wheels. Autistic children are angelic beings, they are the test of human beings. They come to you for a test. Let's say you have done this, metaverset requires high energy to do this. Metaversete, not everyone can change things. Even I don't always have the energy to do such things anymore because I don't work with them day and night, but some people do. I don't do it either, because the cost of doing it is very high.

**COMMENT:** Will they reckon again in the next life?

**O. CEYHAN:** They don't have to settle accounts in the next life, they were anybody, but what did Filiz do? She said I don't have a contract, I don't want you. Ahmet is not at fault here. The system sent Zafiran to Ahmet, Zafiran was happy. Ahmet left, and what happened to Filiz.

Be very careful what you wear in life. Whatever you wear is your test.

The most important structure of the runes is this; it corrects the structures in lives that have fallen into confusion and karmic paralysis because of such issues.

Why does money come to you when you say Fehu, for example? Because it should come anyway, but because of such mutual confusion, such wrong energy fields, lineage spells from the past, miyagasas, miyagatas, your direction that should be open is already closed. For this, Fehu, Uruz can help you. And when it doesn't work for some, then we say that you don't need them.

Fehu brings you what is meant to come. Uruz makes what needs to happen happen. Dagaz protects you from the things you need to be protected from because you are in a soup of karma right now. Because it uses energy, it uses magic, there are curses from past reincarnations, there are lineage spells, there are DNA effects, there is a structure we call strokes. The only thing I try to teach in Valhalla is to purify you against these concepts that come from outside you and to try to live your life correctly. We call this RUNA FELLE FEHU, that is, the power to live the life one was born with in one area of Valhalla. This is the reason why I entered occultism.

I am telling you these things so that you can live the life you have chosen, not so that you can do magic and maji. I am telling you to clear the mistakes from your ancestors, from your ancestral karma, which are not yours. This is my logic. I am giving Valhalla lessons for you to make the best use of your comfort zone in the reincarnation you have chosen. I am not giving these lessons for you to bewitch someone and make them fall in love. You already have that love, money, power in your comfort zone, but I am giving these lessons so that you do not get stuck in the stones on the way because of choices, values, what comes from behind, archaic areas. When I first learnt this, I was very sad. The reason why I lost half of my body is my lineage karma. It's not my fault, I paid the price for the mistakes of my lineage. This brought me to another place.

I did not leave these things to my daughter. I suffered a lot because of the mistakes and unconsciousness of my ancestors, I am trying to prevent my child from suffering, my student, my student's child from suffering.

There's a book called "It Didn't Start with You", please read it. Some things didn't start with you. And watch the Olive Branch.

It didn't start with me. My family is the remnants of Isa Bey who betrayed his own brothers for 2-3 concubines, for his land. This betrayal comes out from every part of the lineage, it causes problems in every field, but at least I saved it from the field related to me and mine. You all have such things, this is the problem, you need to intervene. I'm telling you about the runes so you can get rid of them.

Good night, OK AF DAGAZ, BRIN BRI VALLA TEIWAZ...
