**compiled by Dee Finney**

**"That the sons of God saw the daughters of men that they were fair; and they took them wives of all which they chose."**

According to Alex Collier: "I want to talk to you about Lyrae and how the human race colonized our galaxy. Based on the age of the Suns and the planets in our galaxy, it was decided that the human life form was to be created in the Lyrans system. The human race lived there for approximately 40 million years, evolving. The orientation of the human race in Lyrae was agricultural in nature. Apparently, we were very plentiful and abundant, and lived in peace. Then, one day, huge craft appeared in the sky. [Editor Note: This scenario is the theme of the movie Independence Day, to air in the theatres nationally on July 7, 1996]. A large ship came out of the huge craft and approached the planet Bila, and reptilians from Alpha Draconis disembarked. Apparently, the Alpha Draconians and the Lyrans were afraid of each other. I told you before that the Alpha Draconians were apparently the first race in our galaxy to have interstellar space travel, and have had this capability for 4 billion years.

Well, when the Draconians came and saw Bila, with all its abundance and food and natural resources, the Draconians wanted to control it. There was apparently a mis-communication or misunderstanding between the Draconians and Lyran humans. The Lyrans wanted to know more about the Draconians before some kind of “assistance” was offered. The Draconians mistook the communication as a refusal, and subsequently destroyed three out of 14 planets in the Lyran system. The Lyrans were basically defenseless. The planets Bila, Teka and Merck were destroyed. Over 50 million Lyran humans were killed. It is at this point in history that the Draconians began to look at humans as a food source. This is how old the struggle is between the reptilian and human races. Now, I must make the point that not all the reptilian or human races are “dark”. There is a mix. When we start meeting these races, you are going to have to trust your gut instinct. But, they are coming. Hale Bopp is on its way here. It is not a comet. The Draconians: AC: The Draconians are the force behind the repression of human populations everywhere in this galaxy instilling fear-based belief systems and restrictive hierarchies. I asked Morenae about them, and he said, “the Draconian race is probably the most understood race of beings. I have witnessed a deep respect for this race.” The Andromedans consider the Draconians the “ultimate

warriors,” in a negative sense. Moranae continues, “ the Draconians are the oldest reptilian race in our universe. Their forefathers came to our universe from another separate universe or reality system. When this occurred, no one really knows. The Draconians themselves are not really clear on when they got here. The Draconians teach their masses that they were here in this universe first, before humans, and as such they are heirs to the universe and should be considered royalty. They find disgust in the fact that humans do not recognize this as a truth. They have conquered many star systems and have genetically altered many of the life forms they have encountered. The area of the galaxy most densely populated with Draconian sub-races is in the Orion system, which is a huge system, and systems in Rigel and Capella. The mind set or consciousness of the majority of races in these systems is Service-to-Self, and as such they are always invading, subverting and manipulating less advanced races, and using their technology for control and domination. This is a very old and ancient war, and the peace that does not exist is always being tested by these beings, who believe that fear rules, and love is weak. They believe that those they perceive to be less fortunate, in comparison to them, are meant to be slaves. This belief system is promoted at birth in the reptilian races, wherein the mother, after

giving birth, will abandon the offspring to fend for themselves. If they survive they are cared for by a warrior class that uses these children for games of combat and amusement.”. So, you can see that the reptilians are forever stuck in survival mode. This means they have no boundaries in what they will do to other beings. Morenae continues, “it is engrained in them never to trust a human. They are taught the Draconian version of the history of the ‘Great Galactic War’, which teaches that humans are at fault for invading the universe, and that humans selfishly wanted the Draconian society to starve and struggle for the basic materials that would allow them to exist.”

The Reptilians enjoy human flesh, and human children best, for two reasons. The first is that children don't have the accumulation of pollutants in their bodies that adults do, and when children are put into a state of fear, their energy and field and andrenylin just explodes. The reptilians get a "rush" from this stuff.

The Draconians and the Paa Tal:

The Alpha Draconians, a reptilian race composed of master geneticists, tinker with life - which from their perspective exists as a natural resource. The Draconians look at lifeforms which they have created or altered as a natural resource. Apparently, the Alpha Draconians created the primate race, which

was first brought to Mars and then to Earth. The primate race was then tinkered with by many other different races - 21 other races - resulting in the primate race having been modified 22 times. This primate race eventually became Homo Sapien Sapiens. - who we are on a physical level. Yes, we used to have 12 strands of DNA. Ten strands were taken out by a group from Orion in order to control us and hold us back. Why would they want to hold us back?

The reason the Orion group wanted to hold us back was because they found out who we were on a soul level. Again, according to the Andromedans, we humans are part of a group of energies that they know of as the Paa Tal. The reason that the Andromedans use the word Paa Tal, which is by the way a Draconian word, is because the Draconians have legends about warring with a race that was creating human life forms that were opposed to Draconian philosophy. The Paa Tal created life forms that could evolve on their own, with free expression. The Draconians, on the other hand, created races to function as a natural resource for their pleasure. So, you have two very different philosophies."

Q: I wonder if you could talk more about the Draconians and the children that are missing? I know you have information and I am hoping you will share it with us today.

A: This is the one subject I don't like to talk about. The

Draconians are a very large reptilian race, otherwise known as "the Dracs". There is royal line of the reptilian race called the Ciakar. They range from 14 to 22 feet tall and can weigh up to 1,800 pounds. They do have winged appendages and they are awesome beings.

They're extremely clairvoyant and extremely clever, and they can also be extremely sinister.

They apparently were brought by someone to our time and space, our universe, in full

physicality, and dumped here. I don't know

who. They were taken to Alpha Draconis because the nature of that place gave them

the best chance of survival. So, they were

kicked out of some other place. They are a

major factor to be reckoned with. They are for the most part Service-to-Self and do not care

for the human race, because when they were

dumped here they were told that this universe was theirs to command. So, whoever did this

really screwed up. They still have this mind

set. They were one of the first races to chart

our solar system, and in fact they were the

first race to state that our solar system

belonged to them. Apparently, some of them still have the attitude that everything in this solar system belongs to them, and I understand that some of them have been coming back, and that more of them will be coming back. It's going to get real interesting, folks. I can't begin to tell you how interesting it's going to get. They have had space travel for 3 billion years, and they are a remarkable race. But, they have an attitude, and a lot of human races inside and outside our galaxy have had problems with them. I don't want to say that all of them are like this, but that is all I have heard from the Andromedans about them. They look like a 22 foot tall velociraptor, and they're smart, intelligent and very different from us. They apparently at one time came across human colonies in Lyrae. Now, the human race, per se, was not created in the Lyraen system. It was brought there to survive, and again from what the Andromedans have told me, for some reason once they go back 427 million years, they just don't know what else is there. For some reason, although the physicality is there, there is no history of races before that. At least, that they know of, in the Lyraen system. Anyway, the Draconians were flying through there and came across these human colonies, which were agricultural in nature. Because of their talents in horticulture, these humans were making the planets better, like gardens. When the Draconians came and

saw this incredible wealth of food, they basically wanted to control it. Apparently there was a misunderstanding. The Lyraens wanted to know more about the Draconian race before they gave them what they wanted, and apparently the Draconians misunderstood this request, went back and attacked the planets, blew three of them up and killed a lot of people. The Lyraens were forced to migrate and scatter into different parts of our galaxy. So, the action did facilitate colonization, although I wrestle with whether the Draconians were planted here specifically to force us to evolve, or that there is some other agenda here. I do know that there are other reptilian races that are descendants of the Draconians, and many of them are master geneticists. I am told that most of the dinosaurs were brought here, and to Mars, where they came first. Our current human form was crafted on Mars, where the primate and human genes were combined, and then brought to earth to work as slaves in the mines. So, we're still working for a paycheck. They enjoy human flesh, and human children best, for two reasons. The first is that children don't have the accumulation of pollutants in their bodies that adults do, and when children are put into a state of fear, their energy and field and andrenylin just explodes. The reptilians get a "rush" from this stuff. You know, be dedicated to family and to each other.

That's the only way we are going to get through all of this.Q: What is it about the human mind that causes some species to want to suppress us so much? What is it that is so unique to the genetic make up? Do they have free will in the same way we do?A: I don't know that it is so much our minds as it is our extremes of emotions and our essence. They have always stressed that the containment of emotion in physical form is what is most attractive, because they want this due to their loss of passion, and as a result they have become more dependent on technology. Here we are, getting deeper and deeper into physicality, when in fact we have the ability to just leave all of this behind. So, we are not correctly using our power as a race. We are wasting it. As far as our free will as compared to the free will of other races, it is one and the same. It's just that we don't as a population have the realization of the power of our collective free will. We don't totally realize the sovereignty that our free will gives us. That is why they are manipulating us through belief systems in order to try and get us to relinquish our free will, by coercing us to use our own free will against us and ask them to come down here and control us. It's a choice.

**REPTOIDS:** There are many races belonging to the reptilian lifestream, a group far older than that of the human. The reptoids

commonly witnessed by Earthlings, come from the Draco constellation; about eight feet tall, covered in lizard scales, with ferocious talons. They are quite a self-involved race, only interested in space exploration for the purpose of conquest. Many wars have been waged between the Draconians and humanoids in the past; the latter often becoming slave races to the former. Reptoids tend to be great warriors, owing to their physical strength, natural body armour, and fiery temper.

The Draconians do not maintain diplomatic relations with many planets, but are in contact with several other reptilian races. They are also in contact with the Global Elite, for the prospect of using this planet as a slave and food colony attracts them here. They have no respect for humans and would have invaded long ago if we did not have such outstanding support from our benign space brothers.

***Commentary from Dan Winter:*** *The politics of the interventionist Draco trading colonies (see Dune - whose Arrakeis - the home star of Dracos and Dune - is correctly located in Alpha Draconis) - definitely became represented by Enlil / Yahweh / Michael side of the An - Annunaki family. Also should be seen as the roots of insurance and banking on Earth. The templar followers of the MAG (draco matriline) line are often credited with 'inventing' insurance and banking for the west. This is*

*absurd - since they had already installed such industry - so close to fear and extortion - to HARVEST COLONIES on hundreds of planets. The "skull and bones" - Orion- origins of the Piracy and Extortion story is an example of insurance and banking that loses its public relations budget. More on the skull of the Mag below.*

*Later - as Enlil / Yahweh under the name of 'God" Michabo (Michael) installs genetic rules in Aboriginal Australia and the America's he is following the Drac tradition entirely focused on preventing change - and facilitating harvest of colonies- like forests whose only purpose is to be cut down.*

*At a deeper level we should investigate the connection between loss of DNA implosion - the physics of loss of soul & access to BLISS - called NEPHILIM which befell these Draco (lost Seraphim) families. Loss of fire in the blood created loss of lucid dreaming, loss of "ensoulment" and LOSS OF LONG TERM MEMORY. Part of their problem was loss of ability to navigate in time travel ('`Guild Navigator' in Dune - star navigating time travelers, able to warp space from within) - due to this loss of DNA coherence. Not unlike one of their resultant cultures - TIBETAN - who are intensely aware that there is no steering their collective cultural direction (time travel)*

*without a leader who IS able to remember past lives. This is exactly what Draco lost. It is profound to compare this to Zulu shaman leader last week bemoaning to us how his grand children lost the ability to lucid dream just after they suffered being immunized. This is an example of how borg - fallen Drac empires treat DNA. By not loving their genes enough to set them free - they blind their children.*

### **The Reptilian Agenda**

The Reptilian agenda was, and is, to seek out the human refugees for destruction or assimilation, and to use their blood and hormones for sustenance.

*It is said those (Ophanim? Seraphim? winged Dracs? Ciakar? Cherubim?) who placed the Draco in our galactic sector knew that the humanoid remnant would need an aggressive parasite to trigger development. Further the result of the part of the humanoid blood on Earth today receiving a blood line cross from Draco (URu cross with Ibi) - is beneficial. (see Lawrence Gardner defending his Drac family root). This is related to usually AN or Celtic or British RH negative blood. The reptilian Drac blood Enki (RA - abRAham) crossed with the cro-magnon monkey blood had DNA was LESS vital than the indigenous (RHesus) monkey blood. So the reptilians had to keep in-breeding (as in Holy Blood Holy Grail) -*

*consistent with what Swerdlow says below. Areas (UK) where this RHESUS Monkey blood is absent (RH negative) may lead the world in lack of compassion. E-liz-a beth (from Lizard born) breeds a line where no permission to cry produces a stiff upper lip.*

The remnant Lyraens who colonized other planets formed an alliance against the constant Reptilian attacks. They called this alliance the Galactic Federation, comprised of 110 different colonies. The colonies belonging to the Federation wished to maintain their new identities, and no longer associate with the old way. Together, the Federation colonists managed to repel the Reptilian attacks.

There were three primary groups who did not join the Federation. These three groups were considered extremists, or nationalistic idealists, seeking to recreate the glory of the old Lyraen civilization. One group was the Atlans, located on a Pleiadian planet. The Pleiades actually consists of thirty-two planets orbiting seven stars. At that time there were sixteen different colonies of Lyraen descent throughout the Pleiades. These colonists all wanted to oust the renegade Atlans because they remained independent and did not assist their human cousins.

The other two groups were the Martians and

Maldekians, who were already at odds with each other. For this reason, the Reptilians turned their attention toward this solar system with its two human colonies. In the Reptilians estimation, it would be easy to divide and conquer.

The Reptilians love to use comets and asteroids as weapons and ships, using them to travel through the stars. First, they create a small black hole as a propulsion system that pulls the larger planetoid towards its destination. When used as a weapon, they use a particle beam accelerator to create a blast that hurls the comet or asteroid to its target. All of the technology was obtained by the beings from Sirius A<sup>[1]</sup>.

In this way, they hurled a huge ice comet aimed at Mars and Maldek. The Reptilians, not being very technologically oriented, miscalculated the trajectory. The pull of the gigantic gas planet, Jupiter, pulled the comet off course. The ice comet then headed directly for Maldek. The citizens of that planet asked the Martians for help. Even though they were at odds with each other, they allowed some of the Maldekians to move to the Martian underground. The comet came so close to Maldek that the planet got caught between the gravitational pull of Jupiter, Mars, and the comet. This caused the planet to explode,

leaving an asteroid belt between Mars and Jupiter.[\[2\]](#)

The explosion pushed the ice comet close enough to Mars to rip the atmosphere off that planet, leaving only an extremely thin atmosphere. The explosion also pulled Mars further away from the sun.

The comet then continued on toward the Earth. The heat of the sun and the gravitational pull between the two globes forced the watery atmosphere of the Earth to polarize. This polarization pulled most of the ice from the comet to the polar regions of the Earth, thus covering most openings to the inner Earth, while at the same time exposing huge land masses for the first time.

The comet then switched places with Earth, taking up the second orbit from the sun, becoming the planet now known as Venus. The heat of the sun melted the ice on the comet, creating a cloudy covering to this new planet. The Earth was pushed out to the third orbit occupying the previous position held by Mars. The Earth was now ready to be colonized. Most of the surviving amphibians were transported to a new home on Neptune. Some stayed in the newly formed oceans.

The Reptilians who were inside the hollow

comet, now Venus, came to the surface of this new world. They built seven domed cities, one for each of the seven groups in the hierarchy. In the mid-1980s one of New York's daily papers, *Newsday*, reported that a Soviet space probe penetrated the cloud layer of Venus and photographed seven white domes the size of small cities, all in a row. After a page-long diatribe, the American scientists concluded that this was all a natural formation.

The Reptilians drove a large, hollowed out object into Earth's orbit to begin the colonization process. This object is now called the Moon. Conventional science considers the Moon natural, yet it is the only known object in space that does not spin on its axis. The Moon faces the Earth in the same position all of the time, leaving one side in complete darkness. A sonic resonance sent to the surface of the Moon makes a pinging noise like a hollow object. If the Moon were solid, the noise would sound like a thump or thud. The Moon is hollow. A recent article in an astronomy magazine said that the Moon was being reclassified because it is considered to be hollow.

The Reptilians chose a large continental landmass to begin their civilization on the Earth, now referred to as Lemuria or Mu. This was a vast area in what is now the Pacific

Basin, extending from Japan to Australia, and from the coast of California to Peru. The Hawaiian Islands are in the middle of this one-time landmass.

Here, an androgynous Reptilian culture developed. They brought with them the creatures that were their sustenance the dinosaurs. All beings create beneath them animals and plants that are a reflection of the mind-pattern. Reptilians create dinosaurs, humans create mammals. They are not designed to coexist on the same planet.

Additionally, the thinking process of the Reptilians differs from the human thinking process. Because Reptilians do not evolve rapidly and remain unchanging, their expansion is also slow moving and insidious. It would take several millennia for the Reptilians to decide whether or not they would coexist with humans. After all, Earth was still an outpost far from the centre of the Draconian Empire.

In the meantime, the Martians were now living underground with their hostile Maldekian guests. Something had to be done quickly to prevent them from destroying one another. So, the Martians petitioned the Galactic Federation to remove the Maldekian refugees to another planet. The Galactic Federation also received a

petition from the Pleiadian Council at the same time, asking the Federation to remove the Atlans from their star cluster.

The Federation thusly decided to use the Atlans as a counterbalance on Earth. If the Atlans survived, the Maldekians would also be sent. The human/Lyraen descendants were literally throwing their own riffraff to the Reptilian colonists on Earth. In this way, the Federation would get rid of their undesirables. The undesirables would occupy the attention of the Reptilians. The Federation would gain valuable time to build their own forces against the Reptilians.

When the Atlans arrived on the Earth, they colonized what became known as Atlantis. Their continent stretched from what is now the Caribbean Basin to the Azores and Canary Islands, as well as several small island chains reaching up to what is now the East Coast of the United States, including Montauk Point.

The industrious Atlanteans rapidly grew to a large, prospering civilization needing more territory. The dinosaur population was rapidly increasing and becoming dangerous to the human colonists. The Atlanteans began destroying the dinosaurs to protect themselves. This did not sit well with the Reptilians. Soon major battles occurred on the

Earth between the Lemurian Reptilians and Atlantean humans.

At the same time, the Maldekian refugees arrived on Earth. They created a large human colony in what is now the Gobi desert, northern India, Sumer, and other parts of Asia.

The Maldekians attacked the lunar surface where the Reptilians guarded their Earth outpost from invasion. The Maldekians also bombarded Atlantis and Lemuria with laser weapons. The dinosaurs were wiped out.

Additionally, the Martians also attacked the Reptilians from space since they, too, were searching for a Reptilian-free environment in which to live. This might be considered the real First World War on this planet. It was a mess!

*The loss of the Martian atmosphere caused by Draco's playing billiards became the "Total Recall" legend (movie about Martian history and the oxygen war). The Draco bases there today still have no hesitation to shoot down a NASA probe, although increasingly as the US government becomes a satellite of the shape-shifters- they begin to let a few Earth probes in.*

## **Conflict & Creation**

To stop the fighting and make the Earth peaceful enough for colonization, a meeting was held by a council from the Andromeda Galaxy, on a planet called Hatona. This meeting took place outside of the Milky Way Galaxy with a neutral council because all civilizations within the Milky Way Galaxy were in some way connected to the fighting, and all had some sort of stake in belonging to the winning side.

*Interesting prequel to [lettersfromandromeda.com](http://lettersfromandromeda.com) from Alex Collier (author of "Defending Sacred Ground").*

The Hatona Council convened for many decades as the fighting continued in this solar system. Finally, with their intercession, an agreement was reached between some of the human factions and the Reptilian Earth colonists. Keep in mind that this agreement was without the participation of the Reptilians from the original Draco Empire.

The agreement stated that a new breed of humanity would be created on Earth that would contain the DNA of all interested parties who participated in the "peace" process. A designated area on Earth would be set aside for the creation of this new species. The Earth-based Reptilians of Lemuria agreed to this under the condition that the Reptilian body be

the foundation for this new being. This is why the original Bible states, "Let **us** make man in **our** own image." This is a plural statement because it was a group project.

To achieve a new species from a Reptilian androgynous body, it was necessary to separate the genetics into male and female components. This is the allegorical story in the Bible of Adam and Eve. Creating Eve out of the rib of Adam is actually the story of separating the androgynous Reptilian body into male and female. This is why all humans on this planet have Reptilian DNA with Reptilian traits. This is also why human fetuses go through Reptilian-style development in the womb before looking humanoid.

Many prototypes were developed over millennia. Under the supervision of the Hatona Council, races were created and then destroyed when it was not acceptable by all parties. This explains why ancestors of mankind appear and then suddenly disappear in layers of archaeological analysis.

Twelve humanoid, and one Reptilian, groups donated DNA for this purpose. Mankind was developed in the area now known as Iran/Iraq, as well as parts of Africa. Hybrids were also developed on Atlantis and Lemuria. Remnants of these are seen today as the Bigfoot or Yeti

in North America and Asia; the aborigines of Australia; and the pygmies and Watusi in Africa.

The African versions were created by beings from a nomadic, artificial planet known as Niburu, or Marduk. These Reptilian-like beings travel in a manufactured world looping our solar system. The Sumerians called them Annunakki.

*It is here - we would have to assume - the family of AN - with son's Enki / Enlil (Lucifer / Michael - Adon / Yahweh) arrived from Sirius techno craft - with all the Nephilim genetic disasters we called THE RETURN OF ENKI - [soulinvitation.com/enki](http://soulinvitation.com/enki) While people like Sitchin can add useful puzzle pieces like how their home atmosphere repair could gain the necessary gravity fractality using gold deposits - the Sumerian basically did not give him a clue as to the bigger galactic politic mess than triggered Enki's (Abraham) genetic experiments. After repeatedly encountering the Enki Enlil story in Australia - (fish or dolphin god vs snake god -LEVITE) - it was cool to listen to Creto Mutwa tell the Zulu KILIMANJARO means ENKI mountain!*

The cosmic joke to this project is that all of the groups donating DNA secretly programmed sequences to cause their genetic strand to be

predominant. This set the precedent for eternal conflict. Humanity was doomed to fight and be controlled. No one group would ever be in charge. The project was doomed for failure before it even began!

Such DNA programming invites tyranny and oppression. Soul-personalities attracted to such a planet have a victim mentality. Many advanced cultures call Earth a prison planet, and dump their criminals here as punishment. Once in a while, one of these soul-personalities reveal themselves, such as Richard Dahmer, Charles Manson, Richard Speck, and Vlad the Impaler (Count Dracula), to name a few.

*DUNE was a prison colony - like Australia. Earth fits the archetype. Like in Dune however- in Earth's genetic cauldron of survival - the strongest DNA emerges: -- A 'VACCINE' for the Orion wars ? built by design? The current expression of the 2 brothers still tossing nuclear bombs then called East of Eden, today called the Middle East Conflict- may be a perfect healthy fractal of the Orion Wars - with the main warring galactic elements all nicely staged to work out a galactic conflict in a micro-cosm. This may be more however than a tempest in a teapot - because the galactic players appear to be willing to up the stakes with more intervention if their chess piece starts to lose. Enlil as*

*Yahweh (the encoder in Bible Code) may not be willing to stand aside as his Israel under the hex Draco flag - is destroyed by yet another nuclear blast. (predicted by Bible Code and Fatima & others) . As [wingmakers.com](http://wingmakers.com) so nicely pointed out - only the TRON (BST technology) with (ignited) DNA more time travel capable can defeat such predatory ET's. These genes which time travel are precisely the jewel that always eludes Yahweh Enlil's reptile (levite) family. - they are [stuck in THE CUBE - genetic software environment of the tetra- \(Hebrew alphabet\)](#) which can only make a golem.*

*Israel was originally the genes of Enki when his Thoth Ptah line Akhanaton - took the gold from Egypt - assuming the Moses identity to start the Essenes. Trouble with the 12 tribes - genetic implosion symmetry - was when the oriental (queen Drac) Ashoka Ashkanazi - usurped the Sephartic - installing Enlil's control in Israel. (also founding the Bank of England- described below as owning the US banking).*

*The Reptilians ensured that the new Man would be forever attached to the Reptilian frequency because the foundational prototype was Reptilian. This meant that the new Man could easily be mentally controlled by them.*

Upon discovery of this information that the Reptilians wanted control of the new race, the Atlanteans began a severe electromagnetic bombardment of Lemuria. This bombardment caused the bulk of the continent to submerge into the ocean, now called the Pacific Ocean. The only parts left above the water are the Hawaiian Islands, the California coast west of the San Andreas fault, Australia, New Zealand, the South Pacific Islands, Japan, the Philippines, Taiwan, and the islands of southeast Asia.

The Reptilian survivors went to Northern India, the Earth's interior, the planet Venus, and parts of Central and South America. Inner Earth became the "homeland" for most of the surviving Reptilians of Lemuria. Here, they created a vast underground civilization. This started the legends of hell and demons living in fire under the Earth. They built tubes containing fast, subway-like vehicles that can travel to any point on the Earth within a few hours. They created the famed underworld cities of Akkadia, Agartha, Hyperborea, and Shamballa that are sought by explorers to this very day. These cities are built along the inside wall of the inner crust that lines the interior of the Earth. Remember, the hollow Earth is not a theory, but a scientific fact caused by the cooling and spinning of a planet as it is ejected

from a star or sun.

*Shall we check to see if Meredith Lady Young, author of "AGARTHA" (book about the civilization of the inner earth) agrees?*

The primary entry points to the inner Earth are via the North Pole, where there is an opening of 1300 miles, and the South Pole, with an opening of 950 miles. These can be seen from space. That is why commercial aircraft are not allowed to fly over these areas; not because of magnetic disturbances, which is the "official" reason. Admiral Byrd reported on these openings in the 1920s until his information was concealed by the government.

At the very centre, or nucleus, of inner Earth, there is a globe of energy left over from the creation of this planet that acts as an inner sun. It is the light from this object suspended by gravity and centrifugal force that causes the light of the aurora borealis.

Numerous cave entrances to the inner Earth exist in the Rocky Mountains and Sierra Mountains in the western United States, as well as less numerous openings in the Ozarks and Appalachian Mountains. Entries also exist in the Alps, Himalayas, Andes, and the Caribbean. There are also numerous sub-oceanic entry points, particularly in the deep

trenches of the Pacific Ocean, the Caribbean Sea, and the Atlantic submarine mountain ranges especially on or near the Azores, Canary Islands, and the Falklands.

All of these areas are closely guarded by local governments and N.W.O. elite forces. Artificially created entrances exist under the new Denver airport, the Giza Plateau in Egypt, major Air Force complexes around the world, and many of the Temples in India and China. A major Chinese entry point is under the Shensi Pyramid that is out of bounds for everyone in Western China.

Of course, with the Reptilians off the Earth's surface, the Atlanteans were free to play with this new mankind and establish humans as the ruler of this planet. They established colonies all over the remaining portions of land. They invited the Sirians to come and play with them. They booted the Marduk beings off-world and took control of their slaves. They created new hybrids for sea and land, one of which became the Merfolk, a genetic blend of human and dolphin. The dolphin species was brought here from the Andromeda Galaxy to monitor all of these events.

Whenever the Atlanteans detected underground Reptilian activity, they blasted the inner Earth with lasers and

electromagnetic pulses to kill them. Unfortunately, this weakened the upper crust of the Earth's top mantle riding over the trapped magma between the upper and lower crusts. After several millennia of these attacks, the Atlantean continent started to break up. Their civilization began to break up as a reflection of the physical deterioration of their continent. The Atlanteans became even more belligerent as fear and destruction overtook their mind-patterns. Black magicians and sorcerers took the place of scientists and religious leaders.

Fortunately, the population foresaw the destruction that was coming. Many refugees relocated to what is now Egypt, Peru, the Appalachian Mountains and Western Europe, just before the continent collapsed into the upper crust of the Earth. This collapse caused the Earth to flip on its axis, creating the legend of the Flood written about in the Bible, and in other world cultures.

This catastrophe was used as a window of opportunity by the groups that donated DNA to create mankind. They immediately began reorganizing the humans into new groups that became the basis for future nationalism. The Sirians helped to create the ancient Egyptian culture. Those from Tau Ceti organized the Slavic culture. The Rigelians were busy in

China and the Orient.[\[3\]](#)

While all this was transpiring, the Reptilians saw an opportunity and seized it!

### **Bluebloods!**

The inner Earth provided a subterranean locale for the Reptilians to regroup and formulate plans to retake the surface. At this point, the Reptilians were completely cut off from their home in the Draco constellation. Their spaceship, the Moon, was in human hands. They were alone, isolated on a now hostile planet. They needed to defend themselves.

They developed a plan to insidiously retake the surface by blending their genetics with the genetics of the surface humans. Because the human prototype already had Reptilian genetics, it was easy to access the mind-pattern. The Reptilian frequency was already established in the brain stem as well as the Reptilian brain section of these hybrid humans.

The population of Sumer was chosen as the starting point. These humans were primarily descendants of the Martian, Maldekian, and Lyraen refugees. The Reptilians have a preference for the genetics of blonde-haired, blue-eyed people whose mind-patterns and genetics are so easily controlled. They

abducted members of the ruling classes, including political leaders.

Using these humans, they began a new hybridization program that took several generations to perfect. Their goal was to reach a human/ Reptilian genetic 50/50 split. This would produce a human-looking Reptilian that could easily shapeshift from Reptilian to human, then back again. Shapeshifting was accomplished simply by concentrating on the genetics the hybrid wished to open, or lock up, whatever the case may be.

For this program the Reptilians engaged the help of the Sirians who had the technology to implement such a program. The Sirians knew a lot about genetic alterations and mind-programming, which they freely shared with the Reptilians.

Once the hybridization program was complete, the Sumerian leaders were now shapeshifting Reptilians. The new Reptilian hybrid became the elite of that culture. Their blood, because of the increased Reptilian DNA, contained more of a copper content. Since copper-based blood turns blue-green upon oxidizing, these Reptilian hybrids were called "Bluebloods".

*American government is probably the main focus of the current reptilian shapeshifters.*

*Your attention is drawn to the vertical slit eyeballs which shape shift in to many US military leaders - Norman Russbacher, Rupert Murdoch, etc. Pictures: were at [wiolawa.com](http://wiolawa.com) We suggested new rules requiring all government decisions and voting must take place in 20% oxygen air, to kill the shapeshifters.*

The Bluebloods quickly realized that with a 50/50 human/Reptilian genetic split, it was necessary to intermarry to maintain the 50/50 split bloodline necessary to shapeshift. When the split increased too far to the Reptilian side, shapeshifting became difficult, and holding human form became impossible. In these cases, it was discovered that the ingestion of human hormones, flesh, and blood, allowed the Reptilians to maintain the human form.

Human form was necessary to maintain to avoid scaring the population, which was now not accustomed to the Reptilian form. Control of the masses was easier when the orders came from a humanoid. The Reptilian format was kept to religious icons and legends. The statues of their gods and goddesses reflect the Reptilian influence, even showing a female Reptilian holding a hybrid baby.

The shapeshifting Reptilian Bluebloods asked the Sirians for help with the daily maintenance

of their human forms. The Sirians determined that feeding the hybrids human hormones and blood in an altered animal form would be the easiest way to do it unnoticed by the population.

The sacrificial animal used by most Middle Eastern people was the wild boar, so the Sirians chose it as the basis for this new animal hybrid. Human genetics were mixed with those of the wild boar to create the domesticated pig. This animal was served daily to the Bluebloods as a method of temporarily maintaining their human form until they could use an actual human in a sacrificial ceremony.

Because the domesticated pig is a combination of human and animal genetics, eating it is a form of cannibalism. This explains why the Hebrews considered it unclean to eat. This is also why the pig is considered to be the most intelligent animal on Earth, why pig skin can be grafted directly onto humans in burn cases, and why pig heart valves can be used in humans with little difficulty. Cancer drugs and other chemicals are often tested on pigs before humans.

The domesticated pig frequency, or group mind, is the perfect vehicle for animal species to enter before entering human form on their

evolutionary progression. In many respects, pigs can be considered a form of humanity. To a lesser degree, the same is true about cats.

As time progressed, the civilization of Sumer declined and transformed into other cultures. Vast migrations from Sumer to other locations in Central Asia occurred. The migrating peoples took their Blueblood leaders with them, as they were their royalty and kings.

The Sumerians became known as the sum-Aryans, or just, Aryans. They spread out across Asia into the steppes of Russia and into the Northern Indian subcontinent. In India they encountered the dark-skinned Dravidians, who were Reptilian remnants from Lemuria. The Dravidians were driven to the central and southern parts of India, while the Aryan hybrids took control of the north, and into the foothills of the Himalayas. The Aryan leaders, all Bluebloods, became the Sultans and Rajas of legend and history. Sumerians also created Babylonia.

The Sumerians also migrated to the area known as the Caucasus Region, where the Khazars developed. From the Caucasus Region, the Blueblood kings and their people spread west toward Europe, developing into the Franks, Cambrians, and Teutonic nationalities. These nationalities were also

being manipulated by various alien cultures like the Antarians, Arcturians, Aldebarans, Tau Cetians, and other remnants of the Lyraens, such as the Atlans. The Atlans located here eventually became the Celts.

To back-track for just a bit, I had said in a previous chapter that the descendants of the Reptilian hybrid Sumerians went into Central Asia and the Middle East. They mostly established themselves in the Caucasus Mountains and became the Khazars. From here, they spread west toward Europe, seeding the national identities for the Vikings, the Franks, the Teutonic peoples, and the Russians. Keep in mind that when Atlantis sank, some of those refugees went to Western Europe and developed into the Celts. Some went to Greece and others to the Italian Peninsula. These peoples were here before the hybrids moved in. It was during the interim time period from the destruction of Atlantis until the Sumerian descendants moved in that other alien groups started to add their genetic mix to the pot and develop individual cultures based on their home worlds.

These Blueblood leaders also infiltrated the Middle Eastern peoples, such as the Biblical Canaanites, Malachites, and Kittites.

At the same time in Egypt, the Sirians were

reorganizing the Atlantean descendants there, known as the Phoenicians. The Phoenicians were blonde-haired, blue-eyed, with some green-eyed, red-haired people among them. The Phoenicians colonized the coastal Middle East and the British Isles. They even colonized parts of the North-eastern North American continent, all the way to the Great Lakes area. Some of their mines and writing on stone tablets can still be found in the woods of North America.

The Sirians were also genetically creating the ancient Hebrews. The Jewish people are actually a combination of these genetically manipulated Hebrews and the Sumerians. These Jewish people were then released into the Palestinian territory. The name, Palestine, comes from the ancient people, the Philistines, who were actually Phoenicians.

All of these mixed in the coastal plains of Palestine and created a new religion based on sacrifice and an avenging alien controller, that they called God, or Elohim.

Similarly, when the Aryans mixed with the Dravidians in India, they created the Hindu religion, which is actually a recreation of the Reptilian seven-tier hierarchy. The caste system of India is a direct copy of the Reptilian

division of function.

At the same time that all of this was going on in western and central Asia, the Rigelians, were developing the remnants of Lemuria who escaped to the coast of eastern Asia. The Rigelians were a human civilization that was controlled, and eventually assimilated, by the Reptilians. The Rigelians assisted the inner Earth Reptilians in developing a hybrid that included Rigelian DNA. The Rigelian/ Reptilian hybrids set up dynasties in what is now Japan and China that developed independently of their western cousins.

In their mania for control, the Reptilians used the various races that donated DNA to the original human project. They fastidiously monitored these related sections of hybrids to determine which was best suited for overall control, and which for subservience. All the hybrids could be controlled through the Reptilian brain that hooked them into Reptilian mind-patterns, but some were more controllable than others.

In Europe, the Bluebloods insidiously took control of the various tribes and groups, becoming their kings and royalty. They infiltrated the Arcturian experiment, called the Etruscans and started to create a new global empire through the Romans. These European

Bluebloods then entirely eliminated the Antarian experiment in Greece, and instigated their plan for globalization through the Roman Empire.

The Reptilians even offended the Sirians by infiltrating the Egyptian experiment and implementing their religion there.

The Reptilian hybrids became like the endometriosis of the known world, slowly growing into all areas and creating control through the Blueblood system.

### **Mind-Control Via Religion**

The first religion on Earth was the Reptilian belief system brought by the colonists of Lemuria. Their religion believed in a God-Mind that contained a hierarchy, or caste system. This caste system was extrapolated to the several Reptilian species incorporated into the Draco Empire. Each species had its own place in the structure of their society. Every individual knew its functions and respected these boundaries. To violate these rules meant death.

The Reptilians operate as a group mind, meaning that no single Reptilian can make a decision for itself. Only the upper caste, or winged ones, have the semblance of

individuality. They were, and are, the leaders.

When this religion was brought to Sumeria, the caste system was infused into society as a religious hierarchy. Remember that the colonists of Sumeria were refugees from Lyrae/Mars/Maldek. They, like the Atlanteans, maintained the original belief system of the Lyraen culture. The Lyraen belief system encouraged individuality, as well as promoted service to others as a pathway to self-growth. The Lyraens believed that red-haired people were connectors to God-Mind, and as such, used them as oracles.

The Reptilians worshipped the transparent beings from the astral planes as their creators. The transparent beings have a mass consciousness, like an Oversoul. They are basically genderless, although in terms of physical reality, their characteristics and traits render them more masculine than feminine.

When the Reptilians brought this religion to the Sumerians, they were careful to introduce it in a way that would be accepted and followed. First, they created a gender base for a gender-minded population. Then, they instilled fear to control the mind-patterns. Cleverly, they devised a religion based on a male-female, god-goddess control system. The male god was called Nimrod; the female goddess,

Semiramus. They are depicted as half-human, half-Reptilian. Their appearances were designed to frighten the humans into submission.

Nimrod and Semiramis eventually became the Osiris and Isis of Egypt, and the Apollo and Athena of Greece, among many other gods. All used the male/female, god/goddess theme because it represented the original Reptilian androgyny and the separation of the human prototype into the male/female, Adam/Eve.

Because of the "masculine" tendency of the transparent people, and despite being androgynous themselves, the Reptilians prefer the powerful male over the female. They represented their androgyny in Sumer by placing three horns on the Reptilian God, Nimrod. There are many layers of symbolism to this:

The penis and two testicles.

Two energies uniting to create a third, i.e., the human prototype.

The three levels of existence: hyperspace, astral, and physical.

The three levels of awareness: conscious, subconscious, and superconscious.

Androgyny leading to male and female sections.

Thus, the number three was an important

symbol to the Reptilians on Earth. They represent this in many ways, including the lily, or fleur-de-lis with its three points. They also use the scorpion with its stinger and two piercing claws.

The advanced version of the scorpion is the eagle, which represents the scorpion in its higher form. Because of this, the eagle came to represent raising from a lower form to a higher one. It represented power and globalization. Because it was a bird of prey, it was able to capture everything beneath it, especially live food. For these reasons, the Romans always used an eagle on their staffs whenever they marched into a city or country.

Most people do not realize that all birds are descendents of Reptilian dinosaurs. Many corporate logos and superheroes of today have wings attached to them. The wings also represent the winged Reptilian leaders in the upper echelon of the Reptilian/Illuminati flowchart.

Half a continent away in China, the remnants of Lemuria created a male-dominated Empire system. Here, the male Emperor would always have a Empress. The people were told that the Emperor and Empress were descendents of the Sun-God. The symbol of the Empire was the dragon, another Reptilian figure. This "royal"

family created a dynasty that ruled tight-fisted for millennia.

The Chinese Reptilian religion spread across Eastern Asia, while the Sumerian version meandered through Central and Western Asia. The spread of these religions was intentionally controlled from the underground Reptilian population, primarily centred under Tibet. Looking at a world map, one can easily see that this is the best underground base location in Asia to reach all areas of the continent. These Reptilians were aided by beings from Sirius B who developed the Buddhist philosophies, as well as a group of renegade Lyraens trying to reproduce a Lyraen civilization under Reptilian control. Strange bedfellows!

At the same time in India, the Lemurian Reptilian refugees created a caste system that was a direct replica of the Reptilian hierarchy, from the lowly workers/untouchables to the Brahmin/winged ones. This Indian/Reptilian culture remained localized, writing the ancient Vedas and building temples to the various Reptilian gods.

Meanwhile, the Egyptians, who were Atlantean/ Lyraen refugees, were in the process of building a new civilization from the remnants of their two major ancestral ones

that were destroyed. The beings from Sirius A helped them, as they were a major factor in the interactions of Atlantis.

As previously stated, in Egypt, the Reptilian gods were known as Osiris and Isis. The Egyptian panacea of gods included a large variety of hybrid creations, half-human, half-animal. This was reminiscent of the Atlantean hybrid experiments that found their way into Egyptian culture, and was promoted by the Sirians who were preparing that culture for a Reptilian takeover.

The Atlanteans were so entrenched in the original Lyraen belief system, that it took several millennia for the Reptilians to get a stronghold in that culture. Now that the remnants were scattered over the Earth and non-cohesive, it was easy to send in infiltrators (in-full-traitors) to sway the belief system toward a Reptilian flavor. This began with the introduction of the cat as a focal point of worship.

In the Sirius A star system, the main world is called Khoom. The ancient name for Egypt is Khem. There is also a correlation with Mexico. Some researchers say that the Bay of Campeche translates to the Bay of Old Egypt, indicating a connection between Egypt and the Yucatan Peninsula. This is not so. Sirians who

interacted with Atlantis named this area after their home world, and then carried the name on to the new refugee culture in Egypt.

*Our info- is that the word KHEM for Egyptaus (Egypt) meant from the BLACKNESS- for the black or dark copper based nubian blood of Thoth / Enki RA line- which founded it. Evidence would include the black Zulu culture whose name for God - ENKI as in the KILIMANJARO - suggests their own black genetic origins with Enki (RA - abRAham) and his son Thoth. Later the word KHEM meaning BLACK hole became alchemy and CHEMistry - from the IMPLOSION principle of the ABILITY to MAKE black holes (which Gold's electron valence fractality enables). Hence alCHEMy of the heart is the fusion ability which results from perfecting compression (compassion) implosion.*

Another planet in orbit around Sirius A is a world called Kilroti. Here, the Sirians created high-intelligence cat-like beings. These cat-like beings are called the Lion People. In the 1970s and 1980s, the government created a cartoon for children that described these beings.

In the high astral levels, there is an etheric race of Lion Beings who are gold, have wings, and violet eyes. The name of the race is Ari. Ari is also the old Hebrew word for lion. Their

frequency is more powerful than the dolphin frequency. The Ari created the Ohalu Council that governs the Sirius A star system.

*This fits interestingly with Anna Hayes (Voyagers series books, and Amenti - see also [soulinvitation.com/amenti](http://soulinvitation.com/amenti) ) who claims that the REASON the Sphinx is Lion or cat lion shaped is that the star elders of the interventionist Annunaki (Nephelim) were Leonine or cat/lion like. So it was politically correct for the fallen Annunaki to claim that THEIR God was the Lion being. If your God is stronger than your enemies God, you have a problem in war, so your statue (the Sphinx) proves you have the right God (The Lion elders of Sirius) on your side.*

*We wonder why Swerdlow did not suggest that ARY - an .... means LION-based An-nunaki - instead of sum-aryan.*

The Kilroti were generated by mixing the genetics of the Sirians with the energy of the Ari. This is what was brought to ancient Egypt. As the non-physical energy descended into physical reality, DNA formed that could be used to create corporeal life.

This was then mixed with human and wild lion DNA to form the common house cat found on Earth. The cat was given to every home in

ancient Egypt, and programmed to leave at night to report back to their alien controllers. This is why cats to this day have the urge to go out at night. This also explains their aloof nature.

The Sirians incorporated worship of the cat idol into the Egyptian religion to ensure the perpetuity of this method of spying. The Sirians also built the Sphinx as a symbolic reminder of the blending of human genetics with lion frequency. This was a way to energetically bind future civilization to the Sirians. The Sphinx was designed to face the morning star Sirius A every day. The face on the Sphinx is identical to the face on the Mars monument that looks down to the Earth at the Sphinx.

Sirian technology built the complexes at the Cydonia plateau on Mars, upon the arrival of the first Lyraen refugees. The new Martians were unaware of the close Sirian connection to the Reptilians.

The original pyramids, built after the destruction of Atlantis, were energy points. They were the same shapes underground as above, making them into octahedrons. At their centre is a tetrahedron. This master shape is the archetype symbol for God-Mind totality. Anything at its exact centre is absolutely

protected. The octahedron is also the shape of the Delta-T antenna used at the Montauk Project. This shape, when energized in the proper color codes, causes interdimensional rifts, creating vortices and wormholes. Rituals performed at this centre point produce vast energies that can be transmitted through hyperspace to anywhere in creation.

*We saw Preston Nichols spin the Delta T - octa antenna of Montauk - in model - at various psychotronic conferences. It seems neither he nor Swerdlow understood the reason it was later called DECA DELTA- as only when the octa/cube is tilt spun into **dodeca** ( [soulinvitation.com/merkabbah](http://soulinvitation.com/merkabbah) ) do you get implosive compression that becomes superluminal and time penetrating acceleration thru C light speed. Observe to dodeca antenna required for time travel in the movie "CONTACT".*

Some researchers claim that the pyramids were pumping stations for underground Nile tributaries. This is only partially true. Because water is an electromagnetic amplifier, it was used to surround the ritual chamber located in the Delta-T to boost ritual energy. Using these methods, the ancient Egyptians controlled weather, destroyed enemies, created stargates, and boosted their Reptilian energies in ceremony. This is also why the Montauk

Project was located near vast amounts of water.

The Great Pyramid is part of a protective solar system grid, linking the Moon and Mars monuments together to produce a force field to repel invaders. The Great Pyramid is also connected to other points on the Earth such as Stonehenge, a submerged Atlantean crystal, Tiahuanaco, Ayers Rock, and the White Pyramid in western China. Together, they form an energy containment field similar to an electric fence. The HAARP project in Alaska taps into this.

Meanwhile, a dynastic culture similar to the Reptilian Chinese dynasties was forming in Egypt. The Reptilian control religion based on Osirus and Isis fanned out over northeast Africa and the Middle East. At the same time the Reptilian Sumerian cult of Nimrod and Semiramus fanned out over Central Asia.

A unification of these beliefs was necessary to accomplish the plan set forth from the beginning. This is why Abraham originated in the Sumerian city of Ur, journeying westward toward the Middle East. It was no accident that the followers of Abraham wound up in Egypt, where the Sirians then created the Hebrews. The Hebrews were destined to be the cultural prototype for the future world. This is why

they were programmed to wander all over the Earth and influence all existing cultures.

**(again-Italics are Dan Winter comments)**  
**This would all imply that if Enki is in fact the RA in abRAham - that his genetic engineering exploits with his sperm to make Eve fertile using cro-mag egg implanted in his half sister Draco Inanna / Ninhursag - - - was part of a more insidious plan from his Sirian AN family? It fits that his exploits descend from UR because that is the name of the DRAC line. (n-ibi-URu, URushalaem / Jerusalem, il-UR-u, h-ibi-URu / Hebrew , ur-man /roman/romanian ,UR-ban ) We would have to expect that the (part DRAC?) Father he shared with Yahweh Enlil, was half borg machine (Hark-onen, Sarkdauer, Darth Vader...etc). more at Return of Enki - [soulinvitation.com/enki](http://soulinvitation.com/enki) It also fits that Enki's dad AN = antu the sirian SUN GOD (tuethe de dANaan- people of the Gods) (called BIKI by Australian aboriginals) - was able to act distant and aloof even seemingly heartless to the creature-lings of Earths seeming pathetic slave borgs. Today - Swerdlow's description of the Sirius A politics perfectly fits that picture. They will stand back, having sold guns to both sides, impartially waiting to see who wins- and**

**assume education and evolution requires the blood spill. Very much connected to the politics of the west Europe arms munitions families (presumably in Bush's family group) who got great corporate return for their investment in paying for the sub-sonic scalar device (a near tower base lo frequency vibrator) that took down New York's twin towers (evidenced by the seismic trace).**

**Our supposition that Enki (Ra, AbRAham, Aton, Thoth, Hermes and the Akhanaton-Moses - Jesus myth / line they sired) was colored to try to prevent the total parasitic eating of the tak-adama (adam and eve) blood line (you and me) even against the more DRAConian wishes of his family- because he essentially fell in love with his own genetic creation. And even possibly that he perceived eventually that the blood lines he crossed could be the vaccine in the Orion wars giving the remnant humanoids from many star cultures a chance IF they could (bliss) ignite their DNA to enough gravity making to out-steer their creator parasite ancestors??? (the BST of wingmakers.com)**

With all of this as a background, the Reptilian Bluebloods now needed to form a global

empire that would encompass the cultures that they had inspired. They needed to counteract the other alien groups that had been working diligently in Europe to create more human civilizations.

## **Draco**

Created by an ET group, the creators traveled back in time and space with genetic material to support the disintegration of the Lyraen civilization. With seven different types of Draco races, the leader group is a seven to eight foot tall winged reptilian-type creature. Above is pictured a warrior used to conquer and occupy a planet. The slender four to five foot Draco similar to a lizard performs menial tasks and aids in abductions.

Harsh, warlike beings who feel little emotion, the Draco have no regard for culture or other beings. Most Draco are androgynous and reproduce by parthenogenesis, or cloning. One special group that is completely male creates hybrid races that conquer others.

The Earth's Moon is a Draco planetoid placed in orbit aeons ago during the time of the Lemurian colonization. With the intention to divide and conquer, they are known to be brutal, as with Rigel by boiling oceans, scorching landmasses, etc. The Draco have vast underground bases on Earth and colonies on Venus.

A second Moon has been stationed over the

Earth. It arrive behind the Hale-Bopp Comet in 1997. These are pure Reptilians. The hybrids, Illuminati, are in control of the Earth.

footnote:

1. The Sirians were at war with the Orion system. This hostility exists to this day. It is intriguing since the beings in Orion were once very human, as Lyraen colonists, and then were taken over by the Reptilians. However, the Sirians and the Reptilians trade with each other and the beings from Sirius A sell weaponry to the Dracos! A complex political situation indeed.

2. The comet also caused the planet Uranus to flip on its side. It is the only known planet that rotates north-South instead of East-West.

There follows excerpts from the book:

**Montauk:The Alien Connection, by Stewart Swerdlow**

**Edited by Peter Moon, Expansions Publishing Co.**

***Comments in italics are from Dan Winter, the rest is a quote directly from the book- pages mentioned..***

p.36-40

Speaking in succession from right to left, the first one was a large reptilian creature who

looked like a lizard stuffed into a black uniform. He spoke with a hissing noise in a language that sounded guttural and severe. Simultaneously, I heard the meaning of his words in my head. A member of a vast empire that spanned a large portion of the galaxy, his people are attempting to occupy all of the star systems on the outer fringes of this galaxy, eventually working their way inward. A defector, he now advises this council on the possible activities of these invasion forces.

According to the lizard, the Earth was invaded many thousands of years ago by an army of his people that arrived in a huge ship that is now the moon of Earth.

*numerous sources- including we understand NASA's seismic data - confirm the moon is a hollow metal framework, towed in here, and infested internally with Greys and Dracs*

Another such ship is on its way, he said, destined to arrive before the end of this century (as we calculate time).

*Several sources - among them Alex Collier, have insisted artificial planetoids - like Hale Bopp's tow ins - were headed here in comet gravity tails - filled with invading Dracos. The sun cruisers in the solar / mercury near orbit - visible on several web sites - are said to be*

*examples of these. Alex's Andromedan material specifically predicted the comet would drop the invasion ships in a temporary near Mercury orbit.*

After being driven off the Earth by settlers from the Lyraen Empire, his people went underground.

*Most of the Lemurian epoch stories suggest that the end of the Lemurian continent was a war with a reptilian race, which the humanoids won against the reptilians - but at the cost of the environment- forcing the humanoid surviving remnant underground- where their blood became more red and dependant on iron to bond oxygen (as opposed to the humanoid remnant who fled at that point largely to Sirius and Pleades where they became more blue / copper blood.)*

There, they remain in stasis until they are to be reactivated by the incoming ship. These reptilians also maintain bases on Venus and on some of the moons of the outer planets. Because his people are male only, they created females for the sole purpose of breeding. Despite this, cloning is their primary method of reproduction. In conclusion, the lizard added that I would someday convert his people to the Light because my soul was an emissary to them many years ago.

Remembering me, they would respect what I said to them.

The next one to speak was an amphibian-type being who looked very much like the Creature from the Black Lagoon. Slimy and moist, his body was covered with a scaly, greenish-grey skin. Breathing heavily, his thoughts flooded my brain. His civilization was the original inhabitant of Earth before the others arrived. At that time, Earth was mostly water and marshes. Devastated by mankind and aliens alike, there remain only a few pockets of his people at the deepest depths of the oceans. From time to time they come to dry land to sun themselves, thus creating the basis for the legendary mermaids and mermen. This species worked closely with the Atlanteans before that continent sank. They served as liaisons between mankind and the whales and dolphins. He said that these sea mammals are advanced races from another galaxy. Most of his people were lifted off-world to underground oceans on Neptune. This maneuver was facilitated by benevolent ET groups. Continuing, he told me that I have dolphin DNA; therefore, I could learn to communicate with his species in order to help mankind and the dolphin/whale systems.

Next, a being on the opposite side of the table spoke. Looking like a small dark-haired human,

his eyes were so dark that they almost shined. His eyes seemed to pierce right through my own, and I found it difficult to look at him. **Claiming to represent the Federation of Planets of this galaxy, he said that there are over 120 different member civilizations. Someday, Earth will be asked to join, but only if they are successful in repelling the invasion force. Otherwise, Earth could become a target by the Federation until the reptilians are removed.**

This dark-haired human said that I was selected to speak with all of these aliens because each species had contributed to my DNA creation. I was made for the express genetic purpose of belonging to many different groups. Because of that, each group would be more willing to listen to me and accept my ideas since I partially belonged to them. Continuing, he said that my soul-personality had agreed to this mission long ago, undergoing training in many galaxies and alternate universes. He said that much of what they told me now would stay hidden in my cellular memory until each piece of information becomes necessary. Future hardships and sadness would condition me for my mission. Not wanting to hear any of this, I tensed up to the point of vomiting. The next thing I remember, I was still in the chair with

another being talking to me.

This creature was a pale greyish-white. He possessed large, round, black eyes and a long nose. A short curtain of material draped around the back of his large head. His thin mouth did not move as he spoke words inside my head. With a harsh attitude, this grey claimed to be from the Rigel star system. Although he did not want to be part of this meeting, his overlords insisted that he attend it. His job was to monitor the procedures since I was once a part of their race, too. His home world was once part of the Lyraen civilization. After that culture disintegrated, the reptilians invaded his planet. Now his people are part of that empire and as such, do their bidding. From time to time he would send his workers, smaller grey creatures, to check up on me. Most of the time I would not remember it except as a bad dream.

*Michael Ash - the supposed chief time empath from Montauk - had described to me how unpleasant and interventionist the many Rigelians were - who he encountered at Montauk. Also notably in the [Buehler](#) / Thoth materials- Thoth ( son of Enki / Adonai / Ra / Hermes) insists his blood is blue / black because HE WAS FROM RIGEL IN ORION. I suspect this was the ancestral family of Enki / Ra 's mother AIDA who was winged Drac..*

*"Ptah Taal" (Thoth - Nubian - blue black blood - was the reason the original name for EGYPT was KHEM - which means from the BLACKNESS - the term alCHEMy therefore means- science of making black holes. It was Thoth - Hermes family who impregnated Aksenpaten - which became the Tut / Magdalen story - and BLACK MADONNA). In Alex Collier - Andromedan papers (Defending Sacred Ground - etc.) Read about the origin of the term PTAH in Egypt (RA /ENKI'S line ) from the term PTAH TAAL - meaning 11th dimensional or Bird Tribe - but more probably WINGED DRAC or CIAKAR or MOTHMAN - The source of the psychokinesis in the DNA - ENKI - RA - AbRAham - used in his own sperm to make Adam and EVE fertile. (read Return of Enki- [soulinvitation.com/enki](http://soulinvitation.com/enki))*

There would come a time when these greys would be at war with some of the worlds represented at this meeting. My job would then be to monitor the activities and report the findings to my controllers. My body contains chemicals needed by his race. The grey said that his race also looked human until war contaminated their environment, genetically degenerating them. My body was presented to them as a temporary token of hope and peace. Allowed to use my genetics for the purpose of upgrading their dying species, they could not purposefully harm me, permanently kidnap me, or allow me to remember what they did to

get what they needed from me. These were the rules that all abided by to keep the status quo while at the same time benefiting from my creation.

If my mission failed, or if any of the participants in this project no longer wished to continue, then I would be removed to a safe place while the others fought amongst themselves, possibly even on the surface of the planet Earth. Finally, he told me that his people merely wished to correct the errors committed against them in order to evolve. They wished to become independent of the reptilians and recreate their old civilization before it was too late. Their dilemma was that, if they attempted this, they would be destroyed completely by their masters. On the other hand, if they continued with their masters orders, they would be targeted by the Federation planets. Because they felt hopeless, they looked out only for themselves.

At this point, the last being at the council table, who sat in the middle, interrupted the Rigelian. This being was very tall. Standing up, he raised his arms to either side. The beautiful white robe he wore was trimmed in a blue that I had never seen before. His large head was round on top with a pointed chin. Standing with his arms outstretched, he remarkably resembled a living ankh. His oval eyes were

brilliant blue; his skin ivory white. By far, he was the most impressive being at this gathering. When his thoughts filled my head, I could not even think of my own name! As he spoke, I saw words in a strange language swirling ethereally around his head.

He told me his name, but I cannot remember it. Coming from the planet Khoom in the binary Sirius star system, his people were descendents of non-physical beings who inhabited hyperspace, a region of consciousness existing outside of linear time and space. They created the ancient Egyptian civilization as well as the Jewish people and gave them the Torah. The Crystal Skull was their creation, and they were in charge of many events in the galaxy and beyond. My soul-personality was from his people because it was the only type advanced enough to animate such a hybrid body as my own. Possessing the most advanced technology in the universe, all the other species came to these Sirians for information. Now, as an adult,

I realize that this group also plays one civilization against the other to benefit evolution as well as their own species.

Stewart Swerdlow relates:

That night, the session was most interesting. After I was entranced, a small white being, who looked like a typical grey, entered my body. Speaking at first in a strange language that only Duncan understood, it then spoke in English as the tone became more ominous. This being said that it had every right to take possession of my body because I was one of them! Challenging this remark, Preston said that I was a human being with a soul from God, and no one was allowed to use the body except Stewart. The entity cursed Preston and called him Pressed On. It said I worked for them and was carrying out a mission vital to the success of their program on Earth. Both Preston and Duncan saw the physical shape of my body change as if it were a grey alien body. The outline of my face similarly changed. Then, the being started to move my body. Getting up, it walked around while making nasty comments about those present.

Although my eyes were closed, my body walked around the room as if it were wide awake.

When Preston started to ask questions about their agenda, the being hesitated. Next, an extremely powerful entity literally pulled the grey from my body as it took over. Identifying itself as a Draco commander, it gave its name as Gengeeko. Preston immediately understood the Draco to be powerful, reptilian warriors.

The creature told Preston that an invasion force was on its way to Earth and that nothing could stop it. The moon orbiting the Earth was their first craft. It had arrived here aeons ago to control the planet. After creating the Lemurian civilization, they had been removed from the Earth by the Atlans and the descendents of the disbanded Lyraen Empire with the help of the Pleiadians. Now, the Draco were returning to reclaim the Earth and use it as a military base for entry into the rest of the galaxy. At this point, I realized that this was why so many races were interested in the Earth. If this planet falls, then the rest of the galaxy is in danger.

The Draconian then stood up and rasped a warning at Preston not to use his equipment or Pleiadian contacts to try to stop them. Next, he physically attacked Preston! Both Duncan and Preston had to restrain this being in my body until it finally sat down and resumed its speech. Claiming that humans were weak, it

said that humans needed the order that an invasion would bring. This way, the invasion would benefit everyone. The Draco would receive the raw materials, workers, and food that they needed for their invasion into the rest of the galaxy. The Earth would be protected forever by the Draco Empire. Our leaders were well aware of the impending invasion, gradually preparing the world population via television shows and movies. Even rulers in some countries were humans with Draco soul-personalities. The reptilian within my body expanded upon his ideas by saying that the United Nations would be the forum for a central planetary government. United States leaders were in league with Draco allies without realizing it. Some of the leaders of this planet had prepared escape plans to Mars where equipment was already being activated, as well as to other planets and moons in this solar system. Mars has a huge underground facility built by the Sirians over 500,000 years ago. Gengeeko said that my body could be used since I was once an ambassador to their home world from the Ohalu Council, the ruler of the Sirian star system. I was neutral and not really concerned about who was in power. This is basically true for me; I am not a political person. My main interest lies in helping individuals to advance their souls and minds. Continuing, Gengeeko stated that I was

created with alien genetics and that my soul-personality was not human nor from this star system. This explains why I have so many mental abilities that are considered unconventional on Earth.

When I came out of this trance several hours later, my body was dehydrated and extremely cold. Disoriented and confused, I did not return to normal for almost two days. In addition, I suffered rectal bleeding, shortness of breath, and severe shivering. Overall, it was not a pleasant experience.

## **BREAKTHROUGH**

The next time Preston used Wilhelm Reich procedures, he brought his tape recorder. An entity calling itself Tubor entered my body with such force that I shuddered hard and nearly fell to the floor. Claiming to be the Draco controller of a mission to prepare Earth for occupation, Tubor's main concern was other alien and human influences on the population that might thwart their plans. These reptilian beings were extremely nasty and hostile toward anyone who questioned them. Tubor commented that it was disgusted with my body and detested the way a human felt. Humans were considered to be weak, fragile, and too prone to emotional reactions.

Insisting that I had a contract with them which

permitted them to use my body before their official arrival, Tubor said that I was also destined to be a liaison during the invasion. Using a human in this way would allow both sides to understand the mind-set of the other. I had supposedly agreed to this because I was once the Sirian ambassador to their home world as well as to Arcturus and a planet called Umo. As the Sirian ambassador, I had successfully negotiated a technology contract between the Draco and the Sirians, Sirius A agreed to provide the Draco with high technology in exchange for free trade and passage of their vessels anywhere within the Draco Empire. This contract upset the Orion Confederation because, being controlled by the Draco, they would never be free. The signing of this contract eventually provoked a war between the Orion Confederation and Sirius A which continues to this day.

Tubor also told us that the Montauk Project employed Sirian technology. The Draco observed all experiments but were especially interested in the ones that involved genetic manipulation. Because they are an androgynous race, the Draco are exceptionally interested in species that procreate sexually. Using sexuality as a means of programming people and gaining mind control over the masses was particularly fascinating to them.

Whenever Preston asked questions or stated an opinion, Tubor became angry. He called Preston Pressed On and referred to Duncan as Dunk Can. At times, Tubor hissed and swung his arms toward them. Tubor even tried to hurt my body by hitting or twisting parts of it. About an hour later, another entity pushed into me and threw Tubor spinning away. After falling limp to the floor, my body then stood up again.

Claiming to be a Sirian, this being gave its name as Mishka. He said that he forced his way into the body to show me how to deflect hostile use of my body. Since I had Sirian DNA, I could easily learn how to defend myself using my abilities. Mishka said that he lived on a large Sirian space station called Calumba which orbited between Earth and Mars. This station was designed to monitor interference on Earth and surrounding planets. The Sirians were independent and considered to be the merchants of the universe. With the highest technology available in their possession, many races came to them for help. Even all the weapons used by the Draco came from Sirius. When Preston remarked that this made them guilty of hurting others, Mishka had an answer. He replied that without Sirian weapons, the Draco would use brutal force to overwhelm their targets. In this way, the Sirians considered themselves to be a mitigating force

in the galaxy.

Over the next several months, Mishka, Mishkas assistant Marshak, Tubor, and Gengeeko used my body to deliver warnings and ultimatums. I was given information that the USSR was in league with the Draco and allowing them to use Soviet bases for advance operations. But, the USSR would eventually break up into smaller nations and disrupt the agreement. When this happened, I was told that this was a deception to lull the rest of the world into a false peace. The various Soviet governments were closely aligned with each other. When the opportunity was right, the Soviets would pounce on the unsuspecting countries. In this way, the Draco had a powerful ally on Earth to do their dirty work for them.

P.142 143

The rest of the conversation involved information about the Sirian interest in Israel and the Jewish people. The Jews, he said, were created as a joint effort between the Sirians and the Draco. The genetic stock came from the Hebrews, a race of Sirian origin. The Ohalu Council, comprised of the leaders of the Sirian civilization, provided the Torah (the first five books of Moses, i.e., the Old Testament of the Bible) with its coded information that I would learn to decipher. In fact, the Ohaluans are

nonphysical beings who remain in hyperspace. The Sirians are their physical descendents. Ancient Hebrew is the language of this council. A holy language, it comes directly from the Mind of God. Each letter is a symbol, number, archetype, and geometric shape that is used to translate from the spiritual into the physical.

In fact, each chapter of the Old Testament can be decoded to letter patterns. When recurring patterns are matched against one another, geometric shapes are formed.

These include a doughnut shape, diamonds, three-dimensional triangles, etc. When all the patterns are enfolded on one another, a tetrahedron is formed in multidimensionality. That is to say, the shape can only be demonstrated on paper by drawing a three-dimensional tetrahedron. However, its actual shape goes far beyond anything that can be shown graphically with current technology. All letters of the Hebrew alphabet can be seen within the shape of the tetrahedron.

In the ancient Hebrew alphabet there are four letters that have a stylized crown on top of them. No one knew why. However, if all of the other letters were somehow forgotten, except for those four special ones, by using these four, the tetrahedron could be reconstructed and all the other letters again found within the

shape.

Scientists in Jerusalem and New York are only now realizing the information encoded within the Old Testament as they review it by computer and research the various letter patterns. What type of mind could have created such a timeless document? Certainly not a human one.

At the conclusion of our conversation, Elsinob told me to return to bed. Walking back to my room, I noticed that the glow suddenly stopped. The moment my head touched my pillow, I went into a deep sleep. At 4:45 A.M., the alarm rang. When I awoke, I remembered everything. That is when I became afraid.

p.156-158

I also learned that there were originally twelve root races on the Earth at the beginning of life on this planet. What this means is that there were twelve original alien races that agreed to genetically manipulate and seed life on this planet as part of a great experiment. The purpose was to determine if all of the man frequencies in the galaxy could live together harmoniously or if they would destroy one another.

These twelve alien races monitored their contributions to the experiment over the

millennia. Some lost interest while some completely altered their original ideas. In any event, the twelve races are returning to remove or aid their part of the project before invasion forces arrive on Earth and usurp all of the resources and people. The outcome of this invasion is yet to be determined.

Many of the original races keep bases in this solar system to watch the Earth. A Sirian base on Mars has existed for many thousands of years. The Amphibians have bases on Neptune and on Titan, a moon of Saturn. The Draco, who are the invading reptilians, have bases on Venus as well as under the Earth. The Pleiadeans have a base on a moon of Jupiter. Many others maintain platforms or stations in orbit around the Earth and other planets in this solar system. Most of them do not want to be discovered yet.

In the early 1990's, I was contacted by a man in Los Angeles on behalf of Marina Popovich, the Soviet cosmonaut who was on a lecture tour in this country. Secretly, she was investigating the disappearance of a Soviet spacecraft that had been on a reconnaissance mission to Mars. While approaching Phobos, a Martian moon, a strange-looking craft emerged from behind that moon, fired something at the Russian probe, and the ship

was never heard from again.

Ms. Popovich knew my family history in Russia (remember, my great-uncle was the first president of the Soviet Union), and she knew about my background and training. She was interested to hear what I had to say about the missing Russian craft.

After several attempts to converse via phone, Marina was suddenly sent back to Moscow. To my knowledge, she never returned. I never had the chance to tell her that a Sirian vessel destroyed the Soviet probe on behalf of the U.S. government and the Israelis! Apparently, there were those people who did not want the world to find out about the monuments on Mars. These same people did not want the public to know that Americans were already working with beings from Tau Ceti who were the progenitors of the Slavic races. Although the Sirians, Tau Cetians, Russians, Israelis, and Americans were theoretically all working together against the Orion Confederation and the Draco Empire, each had their own agenda and withheld information from each other. The Americans and the Israelis wanted primary control so they can eventually dominate the world. They reasoned that the government with the most exclusive information and technology would win.

**Montauk: The Alien Connection Reveals the most amazing story yet to surface in the area of alien abduction. This is an autobiographical and factual account from Stewart Swerdlow, a gifted mentalist who was born clairvoyant but haunted by strange time-space scenarios. After suffering alien abductions and government manipulations, Stewart found Preston Nichols and discovered his own role in time travel experiments known as the Montauk project. After refusing to break his association with Nichols, Stewart was incarcerated by the authorities, but the truth began to reveal itself. Struggling for his life, Stewart used his mental abilities to overcome the negative influences surrounding him and ultimately discovered the highest common denominator in the alien equation an interdimensional language which communicates to all conscious beings.**

Edgar Allen Poe, according to an article in *New Federalist*, was a counter-intelligence operative serving the U.S. government in the first half of the 1800s. Thus, Poe's stories possibly hint at an insider's knowledge of events. From what vision-world did H.P.

We have, to varying degrees, an area in our brains called "the reptile brain." "This ancient area of the brain is driven by another prehistoric segment which some neuroanatomists call the R-complex." [4] "Blue bloods" are the progeny of the Draco/Eve copulations: they, the "blue bloods," have a more pronounced R-complex than we do. These lizard-like beings are peculiar; they are cold-blooded. From the fish to the lizard... And even the venerated H.P. Lovecraft had a strange atavism: "He (Lovecraft) seems to have developed a rare, little-understood affliction called poikilothermism. The victim loses the normal mammalian ability to keep his body's temperature constant, regardless of changes in the ambient temperature. His (Lovecraft's) body assumes the temperature of

its surroundings, as if he were a reptile or a fish." [5]

[5] Lovecraft, by L. Sprague de Camp.  
Understand that H.P. Lovecraft need neither have been necessarily evil nor good: that struggle was his. But Lovecraft, through traces of atavistic throwback, had an ability to tune in on a more subtle vibration. His dreams and visions were assisted by his poikilothermism and evidently heightened R-complex.

Robert MorningSky described in detail the difference between the great Angelic "Aku" vs "Dracu" forces in spiritual history. The Aku translate to "bird tribe, " Ophanim", a lineage focused on the use of spiritual power of the mind and visualization. The Ophanim appear to be the inspirers of the great body of the bird shape in the Templar Cathedra Zodiac landscape. The Aperture from Sirius to Orion in the transmigration of souls, being again the magnetic issue.

The Dracu translate to Draconian, Reptilian, Setian, forces focused on technological and mechanical evolution, generally associated with control by fear and aggression.

In the Gnosis article about John Dee booby trapping the future, the message is indeed that the planting of the Ophanim inspired

Enochian letters was leverage to avoid apocalyse. If we translate Apocalyse at one level as an Epoch of the Ellipse as Jay suggests, then Enochian calls become leverage to face the Draconian/Reptilian presence on the Ellipse of Hale Bopp. (The Fourth HorseMan??).

Interestingly, when John McGovern, our Australian shamnic friend, told the Aboriginals he was going to call down the Angelic forces, they responded with fear at the anger the Angelics would have.

They believed there would be retribution for not have kept the strict martital breeding laws of the ancient angelic ones. This rang a chord from the Morningsky description of the origins of our sex guilt coming from the early DNA experiments which required strict attention to which breeding pairs were permitted to mate, to preserve the most self-aware self-replicating forces in the genepool. Mating decisions were sacred, and required elaborate rubrics for permission. This is still true of Aboriginals today.

Vincent described the attempt of the Shadow government to re-incarnate/ contact the forces of Set. You described the danger of the incarnation of Ahrimann. The parallels are too dramatic to ignore. The terms Draconian,

Typhon, Reptilian, Sauroid, Set, Ahrimanic etc.. seem rather interchangeable.

Angelic communication apparently has the pure principle of symmetry operations based on recursion. This would be our way of embedding our lives inside their waveform. According to Vincent, the Ophanim need to know that we have attempted to speak their language. The symbol set they have given us is the Enochian keys. The wave guide shapes of the Enochian alphabet are reminiscent of the black hole geometries which Bentov saw as the cookie cutters aligning the eddies within which galaxies were created (in his Cosmic Book). Their name and shape and waveguide in principle were all one.

The heart of the Enochian script seems to be this pent (5) inside a 7 spin. This is clearly the 5 cube hypercube in the seven spin tetra inside icosahedron. The five spin space of the Hypercube/dodecahedron nests in the seven spin of the Heart muscle, based on the 7 spins of the tetra, note parallel to Enochian:

This is much more fractal than the cubeoctahedron (unpacked tetrahedron) geometric root of the Hebrew symbols. Clearly, the I Ching script for gene splicing the Hebrew was a more regional and parochial kind of symmetry set.

John Dee could not or would not shake our world by practicing the Enochian he was taught. Apocalypse awaited. Now with Apocalypse apparently here, the time for "calling all angels" may well be at hand. See: <http://vincentbridges.com/ophanim/history.html>

Robert Morning Sky, half Apache and half Hopi "Indian," has authored two books: Guardians of the Grail and The Terra Papers. Mr. Morning Sky says that his grandfather found one of the creatures which survived the crash of an unusual aircraft near Roswell, New Mexico, in 1947. The creature, it is said, told Morning Sky's grandfather some secrets. In his book, The Terra Papers, Mr. Morning Sky reportedly claims a reptilian race from Orion, a constellation seen in the night sky, conquered Earth long ago and made us their property. Intermediaries between the reptilians and the humans were what is called the plutocracy. These "human servitors of the snake-people founded the Bank of England... to control the world by financial hocus-pocus." [7][7]  
Everything Is Under Control, by Robert Anton Wilson. ISBN: 0-06-273417-2

The politics as described by Morningsky, were of an alliance between a more rebellious Sirian Prince geneticist and the Aku- Bird Tribes. The undertow was of a seed to a gene pool which

could link the heavy emotions and passion of the Reptilian/Draconian, with the high spiritual intention of the Bird Tribes. The result could be a species able to use powerful Serpent Force emotions, in the service of Angelic creation directly. Up to this point, in a sense, we have high spiritual beings, with limited leverage into matter. The human experiment created the possibility of human nervous systems and emotions, with feeling bodies capable of bending galaxies.
